

Bid Specification For Walk Behind Snow Blower

Prince Edward Island Department Transportation, Infrastructure & Energy,
Mechanical Branch

Introduction:

This tender is for the purchase of one (1) or more walk behind snow blowers. The Department's decision to purchase will be based on best value as determined by the Department. The snow blower will be operated by Transportation, Infrastructure & Energy.

Requirements & Bid Evaluation:

Award will be based upon the compliance to the tender and the lowest total bid price and earliest guaranteed delivery date.

General:

The Department reserves the right to decide which manufacturer offers the best value to the Department in terms of key specification areas, and lowest price. This document shall be properly completed and must be returned with all tenders. Lowest or any tender not necessarily accepted

The Department will review competitive pricing and earliest guaranteed delivery date meeting all the general specifications requirements.

Upon delivery, installation and training of operators and technicians, each unit will be inspected for compliance to specifications description. Any deficiencies shall be required to be corrected at the bidder's expense before payment for that particular unit is approved or an appropriate credit adjustment is agreed upon.

A response must be stated for each item and where requested an actual value, a blank response will be deemed as meaning "no". Any response with a "no" or a blank may result in the bid being rejected, unless the specifications requested can be provided with an equivalent or better option.

Delivery:

The snow blower(s) must be delivered to the Department of Transportation, Infrastructure & Energy, Charlottetown, Mechanical Branch on or before specified delivery date vendor submitted on tender document.

Delay in Delivery:

The Bidder's attention is drawn to the delivery deadline date. Any delays beyond this time will be considered a lack of performance by the Vendor and a failure to provide the tendered equipment.

Product Acceptance:

The unit must be properly pre-delivery serviced to ensure it is ready for use with particular attention to lubes, fluids, filters, all fasteners, and adjustable items.

Staff Training:

The dealer/manufacturer is to provide a competent representative to train staff, if requested by vendor.

Service Manual: (New Vehicle)

Dealer is to provide one (1) hard copy service manual in case of equipment problems.

Warranty:

All warranty work, including shipping, parts delivery charges, all shipments and travel, will be at the expense of the supplier.
