

Request for proposals # 2018-01

Municipal Growth Management Study

October 16, 2018

QUESTION AND ANSWER

Q. Can you give a bit more detail on the requirements for bilingual service?

A. We anticipate that public consultation meetings will attract a high percentage of French- speaking residents therefore we expect public meetings to be conducted in French with simultaneous translation available to English speaking participants. Presentations should as much as possible be in French.

Open discussion period will be in the language of choice of the participant with simultaneous translation available to those wanting it. (If needed, we are willing to assist in accessing translators that offer this type of service).

Documentation at public meetings should be provided in both official languages. As for meetings with the Working Committee there should be a capacity to understand and follow conversations in the French language.
