**ADDENDUM # 004**

**For RFP # 5302**

**TO:** All Bidders

**FROM:** Procurement Services

**DATE:** 9-Jul-2019

**SUBJECT:** Questions and Answers

---

No.	Question	Answer
1	Please provide clarity related to providing project management and implementation proposals as the incumbent.	The Province has made no assumptions on how the requested services will be delivered. The Province has requested proposals for services going forward and the RFP documents and proposals should be completed in their entirety to outline how the Proponent will carry out the implementation of the service.
2	The industry is regulated in such a way that carriers are obligated to facilitate line porting when clients change vendors, and neither the incumbent nor the new vendor, nor the client is charged for porting lines. Based on this, will Schedule 8 (Porting and Retention) be removed from the grid.	The Province will be leaving Schedule 8 (Porting & Retention) in the RFP and all proponents can reference any CRTC regulations they will be adhering to in regards to the porting process.

END OF ADDENDUM.
