**4. Section 4 of the regulations is revoked.**

**5. (1) Subsection 5(1) of the regulations is revoked and the following substituted:**

**5. Plant and boiler ratings**

- (1)** All plants and boilers shall be rated by the chief inspector in accordance with this section.
- (2) Subsection 5(2) of the regulations is amended by the deletion of the word “2015” and the substitution of the word “2023”.**
- (3) Subsection 5(5) of the regulations is amended by the deletion of the following words:**

“1kilowatt = 1 square foot of heating surface  
1 kilowatt = 1 square metre of heating surface x 10.0”

**(4) Subsection 5(6) of the regulations is revoked.**

**6. Subsection 8(3) of the regulations is amended by the deletion of the words “is placed” and the substitution of the words “is to be placed”.**

**7. Subsection 9(1) of the regulations is amended by the deletion of the words “trained personnel” and the substitution of the words “the low-pressure biomass boiler operator”.**

**8. Section 10 of the regulations is revoked and the following substituted:**

**10. Power plant classifications**

- (1)** The following ratings apply to power plants based on the overall capacity of the plant:

Plant capacity	Rating
(a) over 30,000 kilowatts	First Class
(b) 12,001 kilowatts to 30,000 kilowatts	Second Class
(c) 7,001 kilowatts to 12,000 kilowatts	Third Class
(d) 439.6 kilowatts to 7,000 kilowatts	Fourth Class
(e) 300 kilowatts to 439.5 kilowatts	Unsupervised

**Heating plant classifications**

- (2)** The following ratings apply to heating plants based on the overall capacity of the plant:

Plant Capacity	Rating
(a) over 30,000 kilowatts	Second Class
(b) 12,001 kilowatts to 30,000 kilowatts	Third Class
(c) 1,466 kilowatts to 12,000 kilowatts	Fourth Class

Plant Capacity	Rating
(d) 601 kilowatts to 1,465 kilowatts, other than low-pressure biomass boiler	Unsupervised
(e) under 1,464 kilowatts, low-pressure biomass boiler	Low-pressure Biomass Boiler

**Refrigeration plant classifications**

- (3) The following ratings apply to refrigeration plants based on the overall capacity of the plant:

Plant Capacity	Rating
(a) over 895 kilowatts	Class A or Second Class
(b) 598 kilowatts to 895 kilowatts	Class B or Third Class
(c) 74.6 kilowatts to 597 kilowatts	Class B or Fourth Class
(d) under 74.6 kilowatts	Unsupervised

9. (1) **Subsection 13(1) of the regulations is amended by the deletion of the words “Committee for the Standardization of Power Engineers Examinations in Canada” and the substitution of the words “Standardization of Power Engineer Examinations Committee (SOPEEC)”.**
- (2) **Subsection 13(4) of the regulations is amended**
- (a) **by the deletion of the word “his” and the substitution of the words “the candidate’s”; and**
- (b) **by the deletion of the word “he” and the substitution of the words “the candidate”.**
- (3) **Subsection 13(5) of the regulations is amended by the deletion of the word “his”.**
10. **Subsection 15(3) of the regulations is amended by the deletion of the words “(4)(b) and (c)” and the substitution of the words “19(4)(b) and (c)”.**

- (c) **by the addition of the following after clause (b):**
- (c) **completed, at a recognized trade school or university, a course in the operation of an industrial refrigeration plant, recognized by the board.**
- (3) **Subsection 17(6.1) of the regulations is amended**
- (a) **by the deletion of the words “low-pressure biomass operator license” and the substitution of the words “low-pressure biomass boiler operator license”; and**
- (b) **by the deletion of the words “low-pressure biomass boilers” and the substitution of the words “a particular low-pressure biomass boiler”.**
- (4) **Subsection 17(6.2) of the regulations is amended by the deletion of the words “low-pressure biomass operator license” and the substitution of the words “low-pressure biomass boiler operator license”.**

- (5) **Subsection 17(9) of the regulations is amended by the deletion of the words “the candidate may rewrite” and the substitution of the words “the chief inspector may allow the candidate to rewrite”.**
13. **Section 18 of the regulations is amended by the addition of the word “program” after the word “university”.**
14. **Section 19 of the regulations is amended**
- (a) **in subclause (2)(a)(ii), by the deletion of the word “any” and the substitution of the word “a”;**
  - (b) **by the revocation of subclause (3)(a)(iii) and the substitution of the following:**
    - (iii) a registered refrigeration plant not exceeding 895 kilowatts;
  - (c) **in clause (6)(a), by the deletion of the word “597” and the substitution of the word “895”.**
15. **The regulations are amended by the addition of the following after section 19:**
- 19.1 Low-pressure biomass boiler**
- Notwithstanding section 19, no person shall operate or maintain a low-pressure biomass boiler that has an overall capacity under 1,464 kilowatts except a low-pressure biomass boiler operator who holds a license to operate that particular boiler.
16. **Subclause 21(4)(d)(ii) of the regulations is revoked.**
17. (1) **Subsections 24(1) and (2) of the regulations are revoked and the following substituted:**
- 24. Supervision of boiler, solid fuel**
- (1) Subject to subsections (2) and (3), where the heat source of a boiler in a plant is created by the burning of a solid fuel, a power engineer with an appropriate class of license shall be present in the boiler room at all times when the boiler is in operation.
- Exception, low-pressure biomass boiler**
- (2) Subsection (1) does not apply to a low-pressure biomass boiler that has an overall capacity under 1,464 kilowatts.
- (2) **Subsection 24(4) of the regulations is amended by the deletion of the words “A boiler that is not required to be under continuous supervision pursuant to subsection (1) shall be provided with” and the substitution of the words “A boiler that is not subject to the requirements in subsection (1) shall be equipped with”.**
  - (3) **Subsection 24(6) of the regulations is revoked and the following substituted:**

**Unsupervised up to twelve hours**

    - (6) Where a power plant or heating plant that is not a guarded plant has an overall capacity under 4,001 kilowatts and is equipped with protective devices in accordance with subsections (4) and (5), the plant may operate for up to twelve hours without a power engineer in attendance if the premises are unoccupied during that period.

**Guarded plant, eight hours supervision**

    - (6.1) Where a guarded power plant has an overall capacity of 2,001 kilowatts to 4,000 kilowatts or a guarded heating plant has an overall capacity of 4,001 kilowatts to 7,000 kilowatts, a power engineer who holds the appropriate class of license is not

required to be in attendance at all times while the plant is in operation, but shall be present and acting as the shift engineer at the plant for at least eight hours per day.

**Guarded plant, daily inspection**

- (6.2) Where a guarded power plant has an overall capacity of 439.6 kilowatts to 2,000 kilowatts or a guarded heating plant has an overall capacity of 1,466 kilowatts to 4,000 kilowatts, a power engineer who holds the appropriate class of license is not required to be in attendance at all times while the plant is in operation, but shall inspect the plant at least once every 24 hours.

**18. Section 24.1 of the regulations is revoked and the following substituted:**

**24.1 Supervision of refrigeration plant**

- (1) Except as otherwise provided in this section, where a refrigeration plant has an overall operating capacity of 74.6 kilowatts or over, a power engineer who holds the appropriate class of license shall be in attendance at all times while the plant is in operation.

**Direct system, unsupervised**

- (2) Where a refrigeration plant is a direct system and has an overall operating capacity of 74.6 kilowatts to 597 kilowatts, the plant may operate without a power engineer in attendance if the premises are unoccupied and the plant is equipped with protective devices satisfactory to the chief inspector.

**Indirect system, eight hours supervision**

- (3) Subject to subsection (5), where a refrigeration plant is not a direct system and has an overall operating capacity of 299 kilowatts to 597 kilowatts, a power engineer who holds the appropriate class of license shall be in attendance and acting as the shift engineer at the plant for at least eight hours per day while the plant is in operation.

**Indirect system, daily inspection**

- (4) Subject to subsection (5), where a refrigeration plant is not a direct system and has an overall operating capacity of 74.6 kilowatts to 298 kilowatts, a power engineer who holds the appropriate class of license shall inspect the plant at least once every 24 hours while the plant is in operation.

**Indirect system, unsupervised**

- (5) A refrigeration plant referred to in subsection (3) or (4) may operate without a power engineer in attendance if
- (a) the plant is enclosed in a machinery room for a flammable refrigerant classified as 2L, 2 or 3 in accordance with standard CSA B52:2023 (formerly a Class T machine room); or
  - (b) the premises are unoccupied and the plant is equipped with protective devices satisfactory to the chief inspector.

**Temporary de-rating of plant**

- (6) The owner of a refrigeration plant may temporarily de-rate the plant's registration, without applying for re-registration, by submitting a plan for the temporary operation of the plant to the chief inspector and obtaining the chief inspector's approval of the temporary de-rating.

**Does not apply to plant using Group A1 refrigerants**

- (7) This section does not apply to a refrigeration system using refrigerants classified in standard CSA B52:2023 as Group A1 refrigerants.

**19. Section 25 of the regulations is amended in the words preceding clause (a), by the deletion of the words "as referred to in subsection 24(1)," and the substitution of the words "that has an overall capacity under 1,464 kilowatts,".**

**20. Subsection 25.1(1) of the regulations is amended**

- (a) in clause (a), by the deletion of the word "1,465" and the substitution of the word "1,466"; and

- (b) in clause (b), by the deletion of the word “439.5” and the substitution of the word “439.6”.

21. These regulations come into force on September 13, 2025.

## EXPLANATORY NOTES

**SECTION 1** amends subsection 1(1) of the *Power Engineers Act* Regulations by revoking definitions for the terms “Analysis”, “Class T machinery room”, “continuous supervision”, “minimum supervision” and “periodic supervision”, clarifying definitions for the terms “low-pressure biomass boiler operator” and “unsupervised plant”, removing a reference to “therm hour rating”, and updating the name of the committee responsible for power engineer examinations in Canada.

**SECTION 2** amends clause 2(3)(a) of the regulations by updating a cross-reference to an amended section 24.1 of the regulations.

**SECTION 3** revokes clauses 3(1)(d) and (e) of the regulations, which require the class of license to be held by the chief engineer and the shift engineer to be stated on a certificate of plant registration.

**SECTION 4** revokes section 4 of the regulations, which provides for the rating of plants and boilers installed prior to October 1, 2012.

**SECTION 5** amends section 5 of the regulations by revoking and replacing subsection (1) to provide for rating all plants and boilers, not just those installed after October 1, 2012, updating the code referred to in subsection (2) from the 2015 version to the 2023 version, removing two conversion factors from subsection (5), and revoking subsection (6), which provided an exception for determining the rating of a particular boiler manufactured before 1994.

**SECTION 6** amends subsection 8(3) of the regulations to improve the wording.

**SECTION 7** amends subsection 9(1) of the regulations to replace a reference to “trained personnel” with “the low-pressure biomass boiler operator”, which is more accurate.

**SECTION 8** revokes and replaces section 10 of the regulations to clarify and update the power, heating and refrigeration plant ratings based on overall capacity.

**SECTION 9** amends subsection 13(1) of the regulations by updating the name of the committee responsible for power engineer examinations in Canada and amends subsections 13(4) and (5) to substitute gender-neutral language.

**SECTION 10** amends subsection 15(3) to correct a cross-reference.

**SECTION 11** revokes clause 16(4)(c), which requires that a license state the positions in which the license holder may be employed.

**SECTION 12** amends subclause 17(1)(a)(ii) of the regulations to provide that the qualifications in clauses (a) and (b) are alternative not cumulative. It amends subsection 17(5) to add, in a new clause (c), another qualification option for a refrigeration class B license. It also amends subsections 17(6.1) and (6.2) to correct references to a “low-pressure biomass boiler license” and subsection 17(9) to clarify the wording.

**SECTION 13** amends section 18 to refer to a university program.

**SECTION 14** amends subclause 19(2)(a)(ii) of the regulations to improve the wording and subclause 19(3)(a)(iii) and clause 19(6)(a) of the regulations to update the capacity of a refrigeration plant referenced.

**SECTION 15** adds a new section 19.1 to the regulations to prohibit a person other than a low-pressure biomass boiler operator from operating or maintaining a low-pressure biomass boiler that has an overall capacity under 1,464 kilowatts.

**SECTION 16** revokes subclause 21(4)(d)(ii) of the regulations, which requires an engineer to record activities set out in a document that is no longer referenced in the regulations.

**SECTION 17** amends section 24 of the regulations to clarify the supervision requirements for various types or classes of boilers and plants.

**SECTION 18** revokes and replaces section 24.1 of the regulations to clarify the supervision requirements for various types or classes of refrigeration plant.

**SECTION 19** amends section 25 to replace a cross-reference with a description.

**SECTION 20** amends subsection 25.1(1) of the regulations to clarify the range of the overall capacity of heating and power plants that may be equipped to operate as guarded plants.

**SECTION 21** provides for the commencement of these regulations.
