f) Impoundment – the type of impoundment, if any, which contributes to the presence of the wetland.

BPA	Borrow Pit - Active	A pit, usually roadside, in which earth is being extracted
OMA	Other Man Made - Active	Any wetland which results from a currently active man-made structure
BA	Beaver Active	A wetland created from a *single active* beaver dam
BPI	Borrow Pit - Inactive	A pit usually roadside in which earth was extracted but which is currently inactive
OMI	Other Man Made - Inactive	Any other wetland which resulted from an old, inactive man-made structure
BI	Beaver Inactive	A wetland created from a *single inactive* beaver dam
BS	Beaver System	A wetland which contains a continuous series of beaver dams. The number of inactive and active dams will be recorded in the appropriate fields
BB	Barrier Beach Pond	A seaside pond created by movement of sand across the original outflow
