

# RESULTS AND IMPACT

## Resiliency and Public Trust Programs 2023-2024

Through the Sustainable Canadian Agricultural Partnership (SCAP), the PEI Department of Agriculture and Agriculture and Agri-food Canada (AAFC) are enhancing resiliency in PEI's agriculture sector.

Canada 

Sustainable Canadian Agricultural Partnership  
Competitive. Innovative. Resilient.

### The Resiliency and Public Trust Priority Area Programs:

- Assurance Systems Program
- Promoting Agriculture Awareness and Public Trust Program
- Agriculture Resiliency Program
- Island Community Food Security Program

### 227 assurance/risk management projects completed on-farm and post-farm:

- **110** projects for environmental sustainability
- **110** projects for worker well-being
- **1** project for animal health
- **1** project for plant health
- **1** project for food safety
- **1** project for disease surveillance
- **1** project for quality standard
- **2** projects for market attributes

**\$3,113,511** committed through resiliency and public trust programs

### 17 participants attended training/knowledge transfer events in the following assurance themes:

- Animal health
- Plant health
- Food safety
- Disease surveillance
- Quality standard
- Environmental sustainability
- Traceability
- Emergency management/adaptation

**Over \$185,000** invested in 18 projects that implemented policies/practices to increase resiliency and public trust in PEI's agriculture industry
