

Application for a Watercourse, Wetland and Buffer Zone Activity Permit

Pursuant to Section 6 of the *Environmental Protection Act*
Watercourse and Wetland Protection Regulations

Personal information on this form is collected under Section 6 of the *Environmental Protection Act* Watercourse and Wetland Protection Regulations as it relates directly to and is necessary for an application for a Watercourse, Wetland and Buffer Zone Activity Permit. If you have any questions about this collection of personal information, you may contact the Manager, Environmental Land Management, Department of Environment, Energy and Climate Action (902) 368-5274.

Applicants must complete all applicable sections of this application in sufficient detail to allow for an evaluation of the proposed activity. Incomplete applications may be returned to the applicant and will result in delays in processing.

For additional information applicants should refer to the Watercourse, Wetland and Buffer Zone Activity Guidelines available at www.princeedwardisland.ca

Return completed application with payment to: Department of Environment, Energy and Climate Action

Section 1 – Applicant

Name of individual/organization:

Mailing address:

Postal Code:

Country:

Phone:

Email address:

Section 2 – Registered Property Owner (if different from applicant)

Name of individual/organization:

Mailing address:

Postal Code:

Country:

Phone:

Email address:

Section 3 – Location of Activity

Property Identification Number:

Civic Address:

GPS Coordinates (if known):

Latitude

Longitude

Watercourse Name:

Tributary To:

Community:

County:

Is the proposed activity in/near a: Watercourse Wetland Buffer Zone Sand Dune

Section 4 – Type of Activity

Type of Activity	Fee	Complete in Section 7
<input type="checkbox"/> Beaver dam notching or removal to prevent property damage	\$0	A, B
<input type="checkbox"/> Boardwalk construction (in buffer zone)	\$50	A, B
<input type="checkbox"/> Boardwalk construction (in wetland or sand dune)	\$100	A, B
<input type="checkbox"/> Boat launch or shoreline access	\$100	A, B, H
<input type="checkbox"/> Dam or Impoundment maintenance	\$100	A, B, C
<input type="checkbox"/> Dredging	\$100	A, B, C
<input type="checkbox"/> Floating Dock	\$0	A, B
<input type="checkbox"/> Landscaping	\$100	A, B
<input type="checkbox"/> Culvert / Bridge –new construction	\$100	A, B, C, D (if culvert) or E (if bridge)
<input type="checkbox"/> Culvert / Bridge – repairs	\$100	A, B, C, D (if culvert) or E (if bridge)
<input type="checkbox"/> Road Construction	\$100	A, B
<input type="checkbox"/> Seaweed Removal or Relocation	\$100	A, B
<input type="checkbox"/> Shoreline Protection	\$100	A, B, F
<input type="checkbox"/> Stairway to Beach	\$100	A, B
<input type="checkbox"/> Stream Enhancement	\$0	A, B
<input type="checkbox"/> Temporary Crossing	\$100	A, B, E
<input type="checkbox"/> Tree Cutting (Forest Management)	\$50	A, B
<input type="checkbox"/> Tree Cutting (Safety Hazard, 4 or Fewer Trees)	\$0	A, B
<input type="checkbox"/> Tree Cutting (Water View)	\$100	A, B
<input type="checkbox"/> Watercourse Enhancement or Maintenance	\$100	A, B
<input type="checkbox"/> Water Withdrawal for Irrigation	\$300	A, B, G
<input type="checkbox"/> Wetland Alteration	\$100	A, B, C
<input type="checkbox"/> Wetland Enhancement or Maintenance	\$100	A, B, C
<input type="checkbox"/> Wharf Repairs or Construction (In-Water Work)	\$100	A, B, C
<input type="checkbox"/> Wharf Repairs or Construction (No In-Water Work)	\$50	A, B
<input type="checkbox"/> Other _____	\$50	A, B

Section 5 – Timing of Activity

Specify the desired period for carrying out the proposed activity. Note that the normal window for carrying out in-water work is June 1 – September 30. Requests for work outside this window may be denied or may be subject to additional restrictions and/or conditions.

Start _____
Day/Month/Year

End _____
Day/Month/Year

Section 6 – Description of Activity

Provide a detailed description and a drawing of the proposed activity. Include dimensions and construction details.

Section 7 – Activity Details (complete all parts required as per Section 4)

Part A – Complete for all activities

Specify environmental control methods and/or structures to be utilized to manage run-off, erosion and sedimentation before, during and after construction.

- Silt Fence Straw/Hay Bale Barrier Mulching Stone Check Dams Temporary Berm/Diversion Ditch
- Soil Stabilization Blanket Sediment Pond Other (Specify)

Specify how disturbed soil will be stabilized and how a permanent cover of vegetation will be established when construction is complete.

- Seeding and Mulching Sodding Hydroseeding Tree/Shrub Planting
- Other (Specify) _____

Section 7 – Activity Details (continued)

Part B – Complete for all activities

Specify equipment required.

- Hand-held Tools Farm Tractor Heavy Equipment Motorized Vehicle (i.e. Bobcat, ATV, etc)
 Dump Truck Other (Specify) _____

Part C – Complete for: Culvert-New Construction, Bridge-New Construction, Culvert/Bridge Repairs, Wetland Alteration, Dam/Impoundment Maintenance, Dredging and any other activity requiring work in water.

Specify method of dewatering work area to allow for work in the dry: Cofferdam Cofferdam and Pump

Cofferdam and Water Diversion Impoundment Drawdown

Other (Specify) _____

Part D - Complete for: Culvert-New Construction and Culvert Repairs

New Culvert

Shape Round Box Pipe Arch Bottomless Arch Other (Specify) _____

Material Steel Plastic Concrete Wood Other (Specify) _____

Length (m) _____ Diameter, if round (mm) _____

Width, if not round (mm) _____ Height, if not round (mm) _____

Existing Culvert

Shape Round Box Pipe Arch Bottomless Arch Other (Specify) _____

Material Steel Plastic Concrete Wood Other (Specify) _____

Length (m) _____ Diameter, if round (mm) _____

Width, if not round (mm) _____ Height, if not round (mm) _____

Condition Blocked Collapsed Rusted Hanging Undersized Washed Out

Other _____

Section 7 – Activity Details (continued)

Part E - Complete for: Bridge-New Construction, Bridge Repairs and Temporary Crossing

New Bridge or Temporary Crossing

Type Clear-Span Other _____

Abutment Construction Timber Steel Concrete Other _____

Deck Construction Timber Steel Concrete Other _____

Span (distance between abutments (m) _____

Existing Bridge

Type Clear-Span Other _____

Abutment Construction Timber Steel Concrete Other _____

Bridge Deck Construction Timber Steel Concrete Other _____

Span (distance between abutments (m) _____

Condition Blocked Collapsed Rusted Undersized No Bridge Present

Other _____

Part F - Complete for Shoreline Protection

Type of Construction Rock Retaining Wall Gabion Baskets Other _____

Material Imported Rock Sandstone Rock Concrete Timber Other _____

Length of Shoreline to be protected (m) _____

Sensitive Features at Construction Site Nesting Birds (i.e. Bank Swallows) Sand Dune Wetland

Other _____

Part G - Complete for: Water Withdrawal/Irrigation

Water Allocation Requested in Imperial Gallons Per Minute (IGPM) _____

Maximum Pumping Capacity of Equipment (IGPM) _____

Has the proposed pumping location been used previously? NO YES Previous Permit Number: _____

Part H - Complete for: Boat Launch/Shoreline Access

Height of the bank at the location of the proposed construction (m) _____

Width of the proposed construction, including side slopes (m) _____

Is there an existing public boat launch/shoreline access within two kilometres of the proposed construction? YES NO

Sensitive Features at Construction Site Nesting Birds (I.E Bank Swallows) Sand Dune Wetland

Other _____

Section 8 – Additional Information (Attach to Application)

Required

- Map of location (aerial photo or GIS map)
- Pre-construction photographs (colour)

Optional:

- Engineered Plans/Drawings (if available)
- Erosion and sedimentation control plan
- Other _____

Section 9 – Declaration

As applicant, I hereby request a permit to commence, make or carry out the watercourse/wetland/buffer zone activity as described on this application form. It is understood that by submitting this application it does not allow the applicant to commence, make or carry out the activity described herein.

It is understood that the issuance of a permit does not exempt the applicant from the provisions of any act of the Legislature of Prince Edward Island or the Parliament of Canada or any due process of law. It is acknowledged that the issuance of a permit does not serve to deprive any person of his or her rights either under statute or common law to claim damages for the loss or injury caused to his or her property by reason of the watercourse/wetland/buffer zone activity. It is understood that the issuance of a permit places no liability upon the Minister of the Department of Environment, Energy and Climate Action.

It is understood that for the purpose of application review, staff from the Department of Environment, Energy and Climate Action at any reasonable time may enter the property as identified in section 3 of this application.

If issued a permit, it is agreed that only such work as approved by the permit shall be carried out and all such work shall be done according to the permit and within the designated time frame so as to cause a minimum of disturbance to the watercourse/wetland/buffer zone.

As applicant, I have read and understood section 35 of the *Environmental Protection Act* that states, "Where contamination or damage of any kind is caused by failure of any person to comply with provisions of this Act or regulations and where the contamination or damage relates to a matter which in the opinion of the Minister requires immediate action to prevent further injury to the environment, the Minister may take the appropriate remedial action to clean up the contamination or damage." Any remedial action taken under section 35 may be at the cost of the applicant or the property owner.
