Marked Fuel Permit Account Num	nber:						

Marked Fuel Used in Farm Truck and/or other Farm Machinery for Non-Exempt Purposes

- Submit this form, together with payment of tax and levy due by March 31st.
- Volumes of fuel used can be calculated either:
 - (a) by estimating the percentage of fuel used in this equipment for non-exempt purposes based on the total volume of marked fuel purchased, or
 - (b) by maintaining more detailed records showing the actual volumes of fuel used in this equipment and the percentage of travel / time

Regardless of which method is used, backup documentation must be maintained to validate the information provided. Information that would be considered valid would include type of non-exempt activity; the extent or amount of non-exempt activity; list of equipment used; information on where the equipment traveled and/or the amount of time use in this non-exempt activity; estimated consumption information for each vehicle such as kilometers per litre or litres per hour.
