

Terms and conditions:

I/We acknowledge and agree that:

1. The property and dwelling that is the subject of this application under the efficiency PEI Heat Pump Rebate is registered with the Taxation and Property Records Division of the PEI Department of Finance in my/our name and that the dwelling is at least 6 months old.
2. The property and dwelling that is the subject of this application under the efficiency PEI Heat Pump Rebate is my/our primary residence or a year round rental property and that it is not a seasonal recreational property. Dwelling must be lived in during the heating season (between November and April each year) to be eligible for the efficiency PEI Heat Pump Rebate.
3. I/We have not defaulted on a previous loan with Finance PEI (formerly the PEI Lending Agency).
4. The eligibility of specific costs under the efficiency PEI Heat Pump Rebate shall be determined by efficiency PEI.
5. The rebate limit per property under all efficiency PEI programs is \$1500. If I/We have received funding for this property through other efficiency PEI programs (Loans or Grants) the rebate limit will be prorated to reflect this. Rebate limits for multi-unit residential buildings or low income clients may be higher.
6. Maximum rebates are tied to the property identified on the application and is applied to any future applications for that property regardless of any change in ownership.
7. Inspections of completed upgrades may be required and I/We agree to allow reasonable access to my/our dwelling during normal business hours.
8. If I/We are receiving funding from any other PEI government agency for the implementation of upgrades subject to this application I/We will disclose this funding to efficiency PEI. Funding received from all government sources will not exceed the total cost of the upgrades.

I/We have been advised that:

9. I am/We are required to inform the contractor who is completing energy upgrades on my/our dwelling that the contractor must declare to the Canada Revenue Agency all the funds paid to the contractor for the completion of the work on my/our dwelling.
10. All work requiring the installation of ozone depleting substances (refrigerants) must be completed by an individual certified as a "registered handler" as specified in the Environmental Protection Act R.S.P.E.I. 1988, Cap. E-9 (Ozone Layer Protection Regulations).
11. All work requiring the connection of electrical components require a "Certificate of Compliance" completed by a licensed electrician as specified in the Electrical Inspection Act R.S.P.E.I. 1988, Cap. E-3 (Canadian Electrical Code Regulations).
12. Geothermal heat pumps must include a copy of CGC certificate in order to be eligible for rebate program.

Steps To Apply:

1. Confirm eligibility (see terms and conditions)
2. Fill out this form completely. Incomplete information will delay or disqualify your rebate.
3. Collect dated sales receipt showing where unit was purchased including make and model numbers of unit installed.
4. Mail this rebate application with original copies of dated receipt(s) and your most recent Maritime Electric bill to:

HEAT PUMP REBATE for ENERGY STAR® Most Efficient Heat Pumps

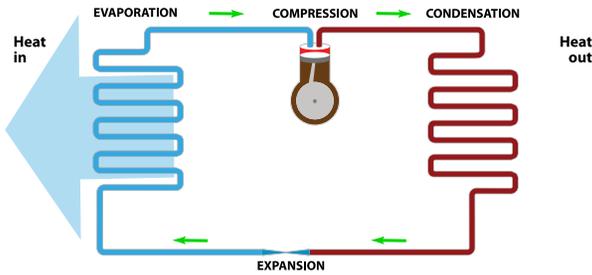

Prince
Edward
Island

CANADA

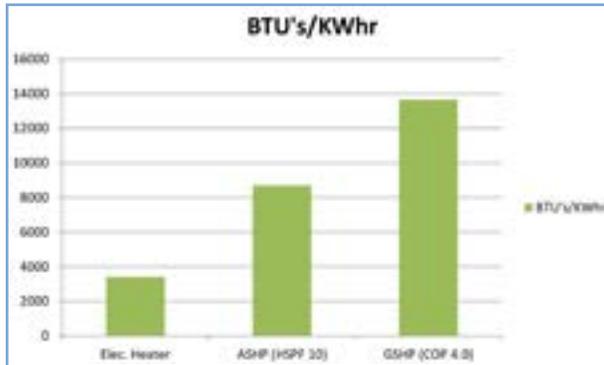

How Heat Pumps Work:

Heat pumps provide heating and cooling for your home by moving heat from one location to another. Heat pumps you might be familiar with are refrigerators and freezers which move heat from the inside of their compartments to the outside.

Likewise home heating heat pumps extract heat from the ground or outside air and move it into your home. Heat pumps use electricity to move heat, powering compressors, pumps and fans, but provide far more heat than that same amount of electricity would generate if it was used to power an electric resistance heater.

Heat Pump Rebate

Efficiency PEI offers rebates for the installation of ENERGY STAR® Most Efficient 2016 split air source heat pumps and geothermal heat pumps.

Air Source heat pumps:

Basic Rebate: \$200 + \$100/ton (12,000btu/hr) to a maximum of \$500/YR

Low income rebate for household incomes of \$20,001 to \$35,000: \$600 + \$200/ton (12,000btu/hr) to a maximum of \$1200/YR

Low income rebate for household incomes of \$20,000 and under: \$1200 + \$400/ton (12,000btu/hr) to a maximum of \$2400/YR

Must be ENERGY STAR® rated

Ductless ASHP must have 20.0 SEER, 12.5 EER and 10.0 HSPF (for region 4)

Ducted ASHP must have 18.0 SEER, 12.5 EER and 9.6 HSPF (for region 4)

Geothermal heat pumps:

Basic Rebate: \$1000

Low income rebate for household incomes of \$20,001 to \$35,000: \$1650

Low income rebate for household incomes of \$20,000 and under: \$3300

Must be ENERGY STAR® rated

Must be certified under Canadian Geoexchange Coalition (CGC)

Must meet the following efficiency requirements:

Closed Loop Water-to-Air GHP:	17.1 EER and 3.6 COP
Open Loop Water-to-Air GHP:	21.1 EER and 4.1 COP
Closed Loop Water-to-Water GHP:	16.1 EER and 3.1 COP
Open Loop Water-to-Water GHP:	20.1 EER and 3.5 COP

Household Information	File #:
Applicant Name (include full middle name):	
Spouse/Partner:	
Marital Status: <input type="checkbox"/> Married <input type="checkbox"/> Common Law <input type="checkbox"/> Divorced <input type="checkbox"/> Separated <input type="checkbox"/> Single <input type="checkbox"/> Widowed	
Civic Address:	
Property Tax Number:	(MURBS) # of Units:
Mailing Address:	
Email Address:	
City/town:	Postal Code:
Cel No.:	Tel No.:
Low Income Information (Check all that apply to you)	
I/We have an annual household income less than \$35,001	<input type="checkbox"/>
I/We receive the National Child Benefit Supplement (NCBS) (this is different than the Canada Child Tax Benefit)	<input type="checkbox"/>
I/We receive the Guaranteed Income Supplement (GIS)	<input type="checkbox"/>
Please check to ensure you have included the document listed below before mailing in your application	
Low Income: Your most recent GST/NCBS/GIS notification	<input type="checkbox"/>
Rental: Rental or Lease agreement if residence is a rental property.	<input type="checkbox"/>
Receipts: Attach receipts for all upgrades you are applying for	<input type="checkbox"/>
Electric/Utility bill showing previous years consumption	<input type="checkbox"/>
Please include receipts for work completed, including the make and model numbers of both the inside and outside units of your air source heat pump.	
The dwelling owner has the right to allow or deny a particular individual or contractor access to his/her residence for the purpose of performing these upgrades. Neither efficiency PEI nor the Government of PEI is responsible for the actions or work of this or any contractor.	

Please ensure you have included all of the following:

- Original dated sales receipt, including model numbers of equipment installed and marked paid in full and signed by contractor.
- Your most recent Maritime Electric bill or Summerside Utility statement showing consumption history for past 12 months.
- Original July GST Statement if your household income is below \$35,000/year.
- Rental agreement if the property is a rental property.
- Ensure the property owner and your contractor has both signed the application.
