Freedom of Information and Protection of Privacy

Personal information on this form is collected under section 31(c) of the *Freedom of Information and Protection of Privacy Act* R.S.P.E.I. 1988, c. F-15.01, as it relates directly to and is necessary for the provision of programs and services operated by **efficiencyPEI**. This personal information may be shared with other public bodies under the FOI/PP Act sections 37 (1)(g) and 37(1)(g.1) when the disclosure is necessary for the delivery of common or integrated programs or services. If you have any questions about this collection of personal information, you may contact the Department of Transportation, Infrastructure and Energy, **efficiencyPEI**, 31 Gordon Drive, Charlottetown, PE C1A 7N8, (902) 620-3690.

HOME ENERGY LOW-INCOME PROGRAM (HELP)

free air-sealing and energy
efficiency program for
low-income home owners
and renters

Toll free: 1-877-734-6336

Why Air Sealing Matters

Controlling air leakage has many benefits to you and your home:

- Saving money on heating costs
- Greater comfort with fewer cold spots and drafts
- Less moisture infiltration to home, protecting building materials from rot
- Quieter home and improved air quality by reducing the amount of noise and dust entering the house

Home Energy Low-income Program (HELP)

Low-income clients with a total household income of \$50,000 or less, are eligible to have a HELP tradesperson complete a comprehensive air-sealing (caulking, weather-stripping, sealing gaskets, etc....) free of charge.

Other features of the HELP program include:

- installation of a programmable thermostat
- a low-flow showerhead
- a voucher for a free furnace cleaning (up to \$80 value)
- a quantity of ENERGY STAR® LED light bulbs

These are simple measures that can have a big impact on the amount of heat lost in your home, saving you money.

The results will vary depending on the size of your home, the current condition of your home and the type of heating system you have—installing a programmable thermostat can save up to \$250 per year in heating costs; and sealing air leaks with caulking and weather-stripping on windows and doors, sealing electrical outlets, and weather-stripping your attic hatch can save as much as \$650 per year in heating costs.

Visit efficiencypei.ca for more information on our other programs and services.
