

PEI Research Ethics Board

Confirmation of Supervisor's Review

To be completed for Graduate, Honours and other Trainee research submissions

All trainees who are conducting human participant research within Health PEI's jurisdiction must submit their project for ethics review prior to undertaking their research. This review is carried out by the PEI Research Ethics Board (PEI REB). It is important that a student's ethics proposal be carefully scrutinized and approved by the student's supervisor. A well-conceived and carefully presented research project will pass through the ethics review process more smoothly than one which has not received adequate input from the student's supervisor and/or supervisory committee.

For this reason, the PEI REB requires that a trainee's supervisor complete the following form. Include the form with the ethics submission.

SUPERVISOR'S CONFIRMATION OF REVIEW (Attach to student's research ethics submission)

Student's Name	
Date	
Program Department	
Project Title	

"I have personally reviewed the scientific/scholarly methods of the research project, which is described in this student's ethics application, and attest that they are sound and appropriate. Also, I have personally reviewed the attached ethics application prior to its submission for ethics review."

Supervisor's Name		Signature	
Department		Date
