FORM 3

[Department logo]
Monthly Occupancy Return

[Return form within 10 days after month end]

103. Freedom of Information and Protection of Privacy Statement

Information on this form is collected under clause 31(c) of Prince Edward Island’s Freedom of Information and Protection of Privacy Act and subsection 6(2) of the Tourism Industry Act and will be used for the purpose of tourism research and statistics reporting. If you have any questions about this collection of information, you may contact the Director of Policy, Planning and Research, Tourism PEI, PO Box 2000, Charlottetown, PE C1A 7N8, Tel: (902) 368-5540.

104. Section 1 – Return Period

This return is for the month of …………………… 20……
Notice: This information must be submitted on a monthly basis for each month your establishment is open, and must be received by the department within 10 days after the end of each month, eg., June occupancy information must be received by July 10.

105. Section 2 - Identification

Name of Tourism Establishment
Contact Name:
Contact Phone Number:
Contact e-mail Address:
Type of Establishment: ☐ Fixed Roof ☐ Campground

106. Notes:
If your establishment consists of both a fixed roofed accommodation and campground, you must file a separate return for each.

An accommodation unit is normally one room. However, a cottage or suite containing two or more bedrooms is considered one rentable unit. A campsite is also considered one rentable unit.

107. Section 3 – Supply of Accommodation Units Available This Month

A. Number of accommodation units available:
B. Number of nights establishment open this month:

Total supply of units available this month: A x B =

Example to calculate units available: If a cottage establishment has 10 cottages available, then the number of units available should be 10. If the establishment closes off 4 cottages from its inventory for the winter or for renovations, then the cottages would be removed from availability and not included in units available. The number of cottages available in this example would be 6.

Notice: Winter rentals do not include units available or rented. Under the Tourism Industry Act, a winter rental means an establishment that provides temporary accommodation for a guest for a continuous period of more than one month and therefore is not defined by law as a tourism establishment.
Section 4 – Nights Rented and Geographic Origin Data
Please provide the number of accommodation-unit nights rented by geographic origin.

Example to calculate geographic origins: if a cottage establishment rents a total of 3 cottages for 5 nights to residents of Ontario in July, then 15 (3 cottages x 5 nights) should be entered in the space for Ontario.

Motorcoach: Please indicate (on the right) the number of rooms rented to motorcoach. (Do not enter rooms rented for motorcoach in the columns below under the Canada, United States or International headings. The geographic origin of each motorcoach guest is not required.)
