Pursuant to section 5 of the *Electrical Inspection Act* R.S.P.E.I. 1988, Cap. E-3, Council made the following regulations:

1. Section 1 of the *Electrical Inspection Act* Regulations (Aug.1/40) is amended
   
   (a) by the revocation of clause (a);
   
   (b) by the revocation of clause (f);
   
   (c) by the revocation of clause (k);
   
   (d) by the addition of the following after clause (j):
   
   (j.1) “contractor’s license” means a contractor’s license issued under subsection 5(1.1);
   
   (j.2) “contractor’s restricted license” means contractor’s restricted license issued under section 6.1;
   
   (e) by the revocation of clause (n) and the substitution of the following:
   
   (n) “Minister” means the Minister responsible for the administration of the Act;

2. (1) Subsection 2(1) of the regulations is revoked and the following substituted:

   (1) No contractor shall install or cause the installation of an electrical installation, and no person shall sell or offer for sale an electrical installation, that is not approved as defined in the Code.

   (2) Subsection 2(2) of the regulations is revoked and the following substituted:

   (2) Notwithstanding the approval under the Code of an electrical installation, no contractor shall install or cause the installation of the electrical installation, and no person shall sell or offer to sell the electrical installation, if
   
   (a) an inspector is at any time of the opinion that the electrical installation does not comply with the Code; and
   
   (b) the inspector has given notice in writing to the contractor or person that
   
   (i) the electrical installation does not, in the inspector’s opinion, comply with the Code, and
   
   (ii) the installation or causing the installation of, or the sale of or offering to sell, the electrical installation is prohibited on receipt of the notice.

   (3) Subsection 2(3) of the regulations is amended by the deletion of the words “or accepted”.

3. (1) Subsection 5(1) of the regulations is amended by the deletion of the words “person holds a contractor’s license issued under subsection (1.1)” and the substitution of the words “contractor holds a contractor’s license”.

   (2) Subsection 5(2) of the regulations is revoked and the following substituted:

   (2) In order to qualify for a contractor’s license, the applicant must
   
   (a) be a certified electrician; and
   
   (b) have
(i) a minimum of two years experience in electric construction wiring after becoming a certified electrician, or
(ii) successfully completed an exam approved by the Minister respecting electrical construction wiring.

(3) Subsection 5(10) of the regulations is revoked and the following substituted:

(10) A contractor who holds a contractor’s license shall ensure that is it posted up in the administration office of the contractor.

(4) Subsection 5(11) of the regulations is amended by the deletion of the words “issued under this section”.

4. Clause 6.2(1)(b) of the regulations is amended

(a) by the deletion of the word “or” after subclause (i);
(b) in subclause (ii), by the deletion of the period and the substitution of the words “, or”; and
(c) by the addition of the following after subclause (ii):
   (iii) has successfully completed a home inspection program certified by the Canadian Home Inspection Association or any other recognized organization that is acceptable to the Senior Electrical Inspector.

5. Subsection 17(1) of the regulations is amended by the deletion of the words “the inspection of such inspector” and the substitution of the words “inspection at the discretion of the inspector”.

6. Schedule 5 of the regulations is revoked and Schedule 5 as set out in the Schedule to these regulations is substituted.

7. These regulations come into force on February 28, 2011.

SCHEDULE

SCHEDULE 5
RESTRICTED AREAS OF ELECTRICAL WORK

The prescribed areas of restricted electrical work for the purposes of these regulations are the following:

(a) the installation, maintenance and repair of electrical signs;
(b) the installation, maintenance, testing and repair of alarm systems, nurses call systems and similar systems;
(c) the maintenance and repair of the electrical components of gas or oil burning equipment;
(d) the maintenance, repair and replacement of the electrical components of refrigeration equipment;
(e) the installation, maintenance, testing, and repair of communication systems, and the electrical components thereof, that have a capacity of 50 volts or less;
(f) the installation, maintenance and testing of the electrical components and wiring that are required for HVAC systems, or similar systems, and that have a capacity of 50 volts or less;
(g) the installation of a swimming pool grounding system;
(h) the installation of the set-up wiring and grounding systems for travelling shows and fairs, including such wiring and systems for any amusement rides and concessions operated at such shows and fairs;
(i) the maintenance and repair of the electrical components of deep well pumps that have a capacity of 240 volts or less and the installation of electrical conduits for such pumps;
(j) the electrical evaluation by a qualified Home Inspector of a dwelling with a service entrance not to exceed 200 amps;

(k) the testing for energy efficiency and for the carrying-out of planned maintenance, quality control and trouble shooting of electrical systems and components.

**EXPLANATORY NOTES**

**SECTION 1** amends the definition provision of the regulations to drop definitions that are no longer needed and to add definitions for terms that are used in the regulations.

**SECTION 2** rewrites two existing provisions to clarify when the sale or installation of electrical installations is prohibited.

**SECTION 3** substitutes the word “contractor”, which is defined with a very wide scope of meaning, for the word “person”, which has a more limited scope of meaning. The section also permits an applicant to be issued a contractor’s license without the currently required two years of experience if the applicant has successfully completed an exam approved by the Minister. And the section requires a contractor who holds a contractor’s license to ensure that it is posted in his or her administration office.

**SECTION 4** adds an alternative requirement to the provision providing for the issuance of a registered technician’s permit. The section indicates that a permit may be issued if the applicant has, in addition to a required amount of experience, successfully completed a home inspection program certified by the Canadian Home Inspection Association or any other recognized organization that is acceptable to a Senior Electrical Inspector.

**SECTION 5** makes a wording change to make it clear that the inspection of any electrical installation after work is completed is at the discretion of the inspector who is given notice of the work.

**SECTION 6** revokes and replaces the restricted areas of electrical work Schedule in the regulations.

**SECTION 7** provides for the commencement of these regulations.
