

Table 20
Area, production and farm value of potatoes 1
Prince Edward Island

	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021
Seeded area, potatoes (acres)	85,700	82,900	85,000	85,800	87,000	84,200	86,000	85,500	83,600	86,000
Harvested area, potatoes (acres) 2	83,700	82,900	84,700	85,300	86,700	83,200	79,200	84,000	83,500	85,250
Average yield, potatoes (hundredweight per harvested acres) 3, 4	290.1	301.7	298	291.3	296.7	294	285.4	289.3	251.5	334.4
Production, potatoes (hundredweight x 1,000)	24,284	25,009	25,240	24,850	25,723	24,463	22,600	24,302	21,000	28,510
Amount sold, consumed, seeded or fed to livestock, potatoes (hundredweight x 1,000) 5, 6	23,794
Average farm price, potatoes (dollars per hundredweight) 6, 7, 8, 9	10.82
Total farm value, potatoes (x 1,000)7	257,470

Symbol legend:

.. not available for a specific reference period

Footnotes:

- 1 Crop year refers to the period August 1 to July 31.
- 2 The June 2020 Quebec seeded area estimates and the Canada total will be released at a later date when available.
- 3 Prior to crop year 1985/1986, harvested area data for Canada and provinces are not available.
- 4 Prior to crop year 1985/1986 for all provinces, except Quebec, the average yield is based on yield Quebec, average yield is per seeded area. For based on seeded area prior to crop year 1993/1994.
- 5 For crop years 1985/1986 to 1992/1993 for Canada, the average yield per acre is based on a combination of average yield per seeded area and average yield per harvested area.

- 6 Prior to crop year 1982/1983, the amount sold, consumed, seeded or fed to livestock data for Canada and the provinces are not available.
- 7 Prior to crop year 1986/1987, excludes the potatoes fed to livestock.
- 8 Prior to crop year 1953/1954 for Canada, Prince Edward Island and New Brunswick; crop year 1974/1975 for Nova Scotia and Ontario; crop year 1976/1977 for Québec; crop year 1981/1982 for Manitoba; and crop year 1985/1986 for Saskatchewan, Alberta and British Columbia, average farm price is based on production.
- 9 For crop years 1954/1955 to 1986/1987 for Canada, the average farm price is based on a combination of average farm price per hundredweight of production and average farm price of amount sold, consumed, seeded and fed to livestock.
