
WHAT DOES THE PROGRAM COVER?

The PEI Smoking Cessation Program covers one full course (12 weeks) of treatment, once per year, for **one** of the following products:

- Gum, lozenges, inhalers or nicotine patches
- Prescription quit smoking medication: Bupropion (brand name Zyban®) or Varenicline (brand name Champix®)

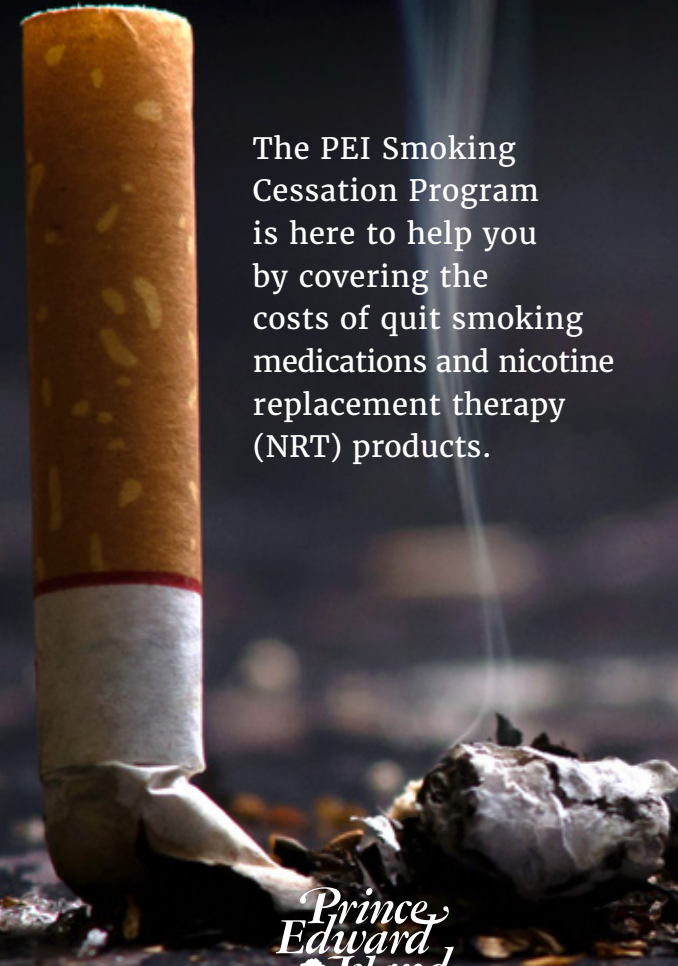

Health and Wellness

DO YOU WANT TO QUIT SMOKING OR USING OTHER KINDS OF TOBACCO?

The PEI Smoking Cessation Program is here to help you by covering the costs of quit smoking medications and nicotine replacement therapy (NRT) products.

Health and Wellness

WHO CAN PARTICIPATE IN THE PROGRAM?

All residents of PEI who smoke or use other tobacco products, and are ready to quit, are eligible to participate.

WHAT ARE NICOTINE REPLACEMENT THERAPY (NRT) PRODUCTS?

NRT products are over-the-counter medications that contain nicotine. They can help you quit smoking by allowing you to slowly reduce the amount of nicotine in your body.

WHAT ARE PRESCRIPTION QUIT SMOKING MEDICATIONS?

Burpropion and Varenicline do not contain nicotine. They act on the brain to help you quit smoking and reduce cravings. Discuss with your health care provider if these medications might be right for you.

HOW CAN I ACCESS THE PROGRAM?

Make an appointment with a nurse at your nearest Primary Care Network office to discuss your readiness to quit smoking and the options available to you.
