

Climate Resiliency and Sustainability

Improving Energy Efficiency of Government Buildings

\$10M over 5 years

Government is investing in improving its buildings to make them more energy efficient and environmentally friendly as part of the Province's Climate Adaptation Plan.

Emergency Preparedness and Resiliency

\$9.7M over 5 years

We are investing in equipment and resources to ensure that our infrastructure and people are better able to respond to future environmental impacts.

Expanding PEI's Electric Highway

\$3.5M over 2 years

The demand for electric vehicles continues to grow. The Province is pleased to be increasing its investment with 16 new fast charging stations across the Island for public use.

Electric School Bus Fleet

\$11M for a new total of \$51.3M

Significant new funding will ensure that 25 electric school buses are added to the existing fleet each year, keeping us on the path of a fully electric fleet by 2030.

Protecting Provincial Shorelines

\$10M over 5 years

The Province is making a significant investment in the protection of its beautiful shorelines to mitigate impact of extreme weather events.
