

Investing in the Health of Islanders

Continued Commitment to Mental Health

\$25M for a new total of \$174M

Following completion of the first two facilities, design and construction continues on the remainder of the Mental Health Campus projects, including the QEH Emergency expansion and the new acute care hospital and life skills centre.

Technology Enhancements

\$11M over 5 years

We are investing in our hospital information systems, mental health and addictions electronic medical records, and community pharmacy modules to support the new Pharmacy Plus program.

Progressing Provincial Ventilation Systems

\$8M over 2 years

New investment that will upgrade ventilation systems across six Island schools as well as at the Provincial Correctional Centre, Souris Hospital, Wedgewood Manor, Beach Grove Home and the QEH.

New Hospital and Long-Term Care Equipment

\$40.1M over 5 years

The replacement of the QEH linear accelerator at the Cancer Treatment Centre will be completed in June of 2023. Equipment to support the safe delivery of medications will be purchased for hospitals and long-term care facilities, as well as other Foundation supported equipment purchases.

Supporting Improved Primary Care Access

\$58M over 5 years

Construction of the new Summerside Community Health Centre (CHC) will begin in the Spring of next year. The new CHC in Alberton will be completed in the Fall of 2023. Planning, design, and construction continues on the remaining CHCs in Charlottetown and Kings County.
