

Safer Communities and Strengthening Industries

Implementing the Gender-based Violence Action Plan

\$2.4M

With help from the Federal Government, create enhanced services, resources and support for people experiencing gender-based violence or de-escalation support to those at risk of perpetuating gender-based violence.

Improving Impaired Driving Enforcement

\$773K

To further build law enforcement capacity to detect and enforce impaired driving and promote awareness of impaired driving harms and countermeasures.

Supporting Municipal Police Services

\$150K

To address workforce challenges by securing additional police cadet training seats at the Atlantic Police Academy for a return-in-service program with municipal police forces.

Growing the Bioscience Sector

\$2M

To continue investing in the bioscience sector through the development of the second incubator space.

Expanding our EV Charging Network

\$1M

To fund the operating costs of new and existing EV chargers in the province's EV network.

Developing Coastal Management Plans

\$500K

To begin the development of shoreline management plans for PEI's regional coastal areas.

Tourism Season Expansion

\$500K

For continued programming to assist tourism operators with product development for the shoulder seasons and to continue efforts to make PEI a year-round destination.

Strengthening Agriculture

\$1M

To support the PEI Agriculture Energy Systems Pilot program and create a land purchase support program for new farmers. This includes educating our youth and supporting veterinary education opportunities.

Supporting Diversity and Inclusion

\$205K

To support government departments and non-government organizations in their work on diversity and inclusion, including additional grant funding.
