

Honourable Darlene Compton
Finance
PO Box 2000
Charlottetown, PE C1A 7N8

Dear Minister Compton:

I am pleased that you have agreed to serve Islanders as Minister of Finance and Deputy Premier.

Our new Progressive Conservative government will work to deliver real benefits for all Islanders; because it's about people. Guided by our approach that begins with putting people at the heart of every decision, we have offered a new, ambitious plan to deliver on our long-term vision for a stronger, healthier province.

I plan to effect change in a way that is true to Island values with strong consideration to our people, communities, wellness and environment. As Premier, I am renewing my commitment to lead with civility, respect, courtesy, and kindness; applying this philosophy to every aspect of our new Progressive Conservative government.

We seek the involvement of the People, ensuring our progress is measurable through transparent decision making and broad public engagement. We're proud of our individuality and it's our responsibility, as Islanders, to ensure our Communities are strengthened and sustained for many generations to allow for resiliency and success. Maintaining our Wellness and healthy living means having timely access to the information and resources Islanders need to take care of themselves and their loved ones. The connection between Islanders and our Environment: the water, land, and the air has always been deeply personal. As stewards of these precious resources, we must understand their value and respect their fragility. These considerations along with your specific ministerial objectives should guide your work and shape your priorities from day to day.

I made a personal commitment to bring new leadership and a new tone to government. I want to work with all MLAs in the Legislative Assembly, and this new cooperative approach is critical to the success of our government.

Islanders expect our government to work together to advance the public good. That means seeking out, fostering, and advancing good ideas regardless of which side of the house they come from.

As minister, you are responsible for ensuring members of the Green and Liberal caucuses are appropriately consulted on major issues and legislation. This consultation and information sharing will occur in accordance with protocols established through caucus house leaders, and in accordance with relevant legislation and confidence. This level of practical collaboration is what Islanders have called on us to do and what we will work to provide them.

.../2

Your Mandate

As the Minister of Finance, Deputy Premier, and Chair of Treasury Board your overarching goal is to lead our province's efforts of prudent fiscal management and to provide direction throughout Government for the management of our fiscal, human and capital resources. As chief steward of the public resources your focus shall be to challenge all initiatives and proposals put forward to you. You will ensure your departmental focus is on supporting the Speech from the Throne delivered on June 14, 2019 while delivering on priorities specific to your mandate.

I expect you to work with your colleagues and through established legislative, regulatory, and Cabinet processes to make substantive progress on the following priorities:

- Reduce the small business tax rate in increments to 1% over the next three years;
- Increase the basic personal exemption amount to \$12,000 over three years with a view towards ongoing increases to eliminate the hidden tax grab of bracket creep;
- Increase the HST rebate to Island charities up to 50% matching the practice of other jurisdictions;
- Expand the PEILCC retail program with a focus on local products to allow more consumer choice and implement a program to extend the availability of alcoholic beverages at private retailers;
- Ensure ITSS is a modern, client focused organization;
- Collaborate with the Public Service Commission to help build capacity and foster the development of a public service that is representative of the province's diversity while encouraging accountability, efficiency and professionalism in providing quality public services to Islanders; and
- Provide progressive leadership to the ongoing operations and modernization of the PEILCC and the PEI Cannabis Management Corporation.

Islanders expect us to fulfill our commitments, and it is my expectation that you will work with our skilled professional public service to deliver on this mandate. You are to consult with your Deputy Minister and other senior officials under your leadership to ensure that all decisions are solidly based on the best evidence available. The public service is a valuable resource and our government believes in building an even stronger work environment based upon clear communication, dignity for all employees and a mutual respect. The list of priorities is ambitious and will take time to plan and deliver to achieve successful outcomes.

I want to remind you of the importance of breaking down barriers facing Islanders accessing services and considering the climate impact while delivering on your priorities. These lenses must transcend through all Departments. Keep in mind that as we move forward our government's priorities may have to adapt to reflect changes in circumstances. We will work together to ensure any amendments required are well thought out and reasoned.

Honourable Darlene Compton

All members of Cabinet are expected to review, understand and act according to the Conflict of Interest Act and to conduct themselves with the highest level of integrity. As a Minister of the Crown the manner in which you conduct yourself reflects on you, as well as your Cabinet colleagues and our government as a whole.

I know I can count on you to fulfill the important responsibilities entrusted in you. In turn, please know that you can count on me to support you every day in your role as Minister.

I look forward to working together with you to build opportunity for all Islanders.

Sincerely,

Honourable Dennis King
Premier of Prince Edward Island
