

Learning and Growing

Adding More Front-line Staff to our Education System

\$7M

To add more front-line staff to our education system, such as teachers, school counselors, educational assistants, youth workers and bus drivers.

Implementing a Vision Care Program for Children

\$708K

To create an elementary school aged vision care program to ensure children have access to eye exams and eyeglasses needed to support their learning.

Enhancing the George Coles Bursary

\$940K

To increase the annual bursary to \$3,200 and expand the program to targeted off-island health care training programs.

Support for the School Food Programs

\$1M

To provide additional funding to the school breakfast program and continue supporting the pay-what-you-can school provincial lunch program for all students in public schools across PEI.

Growing Childcare Supports and Spaces

\$4.3M

To improve access to childcare for families, continue the implementation of \$10/day childcare and provide supports for operators to create more childcare spaces, with a commitment of 30 percent of new spaces for infants. This brings the total investment in reducing fees to \$12.3 million.
