

Employment Insurance & Career Connect

If you qualify to receive student assistance funding from PEI Student Loan Program, you must report your EI funding in your student loan application or pre study report. EI is viewed as a resource on your student assistance application. Please note that the tentative provincial student loan amount issued in the first assessment is subject to change when we process your pre study report.

Documentation

You will need to provide us with proof of your EI income; you can obtain a printout of your EI funding amounts, the date your funding started and the date it will end, plus the dates on which you received/will receive funding from [Service Canada](#). If you need help with this service to download a report, please contact Service Canada.
