

Net Zero Funding Programs

Our government is committed to the **Path to Net Zero** to reduce the province's greenhouse gas emissions. To assist in that goal we have provided a number of energy efficient incentives.

Energy Efficient Equipment Rebates

- Rebates on qualifying heat pumps, hot water heaters, biomass stove/furnaces/boilers, heat recovery air exchangers and electric thermal storage units*
(*available through the Summerside electric utility only).

Home Insulation Rebate

- Rebates on qualifying insulation upgrades, air sealing and windows and doors.

Solar Electric Rebates

- Rebates on solar electric systems

Choosing a Contractor

Network of Excellence (NoE) contractors have up to date information on efficiencyPEI programs and services and participate in ongoing trade-specific training. They meet provincial regulations and standards.

An NoE contractor is required for for heat pump and solar rebate.
