Classroom training focussing on using the resources and customer service will be held in two sessions in late June, early July. Locations/Dates TBD.

**Program support and status**

Tourism PEI will no longer provide direct funding to individual Welcome Centres. The program funding has been dedicated to the general operation and maintenance of the program. This is to include items such as staff training, signage, etc.

Training is one of the most important components of the Welcome Centre Program. Tourism PEI understands the challenges faced by operators in accommodating the training dates and is therefore committed to working with Welcome Centres to meet their training needs.

In order to receive full Welcome Centre status, all Welcome Centre staff must receive Welcome Centre training. If Welcome Centres do not meet the training requirements, their future status as a Welcome Centre will be re-assessed to determine if the appropriate level of commitment exists in order to maintain status as a Welcome Centre. Please contact Heather Pollard to determine your training needs.
