AND WHEREAS in consultation with the Lieutenant Governor in Council, I believe it is reasonably necessary to impose special measures in the Province in order to protect the health of the population;

AND WHEREAS pursuant to subsection 39(1) of the Act, I, as the Chief Public Health Officer, may require a person to take or refrain from taking any action that is specified in this Order in respect of a communicable disease;

AND WHEREAS I, as the Chief Public Health Officer, pursuant to subsection 39(2) of the Act, believe on reasonable and probable grounds that:

- (a) a communicable disease, COVID-19, including any new variants of the virus causing COVID-19, exists or may exist in the Province;

AND WHEREAS, at the time of making this Order, recommendations from the National Advisory Committee on Immunization inform that first doses of currently authorized COVID-19 vaccines in Canada have been shown to offer at least short-term protection against COVID-19 disease and that approximately two weeks after receiving a completed series, currently authorized vaccines in Canada have been shown to be highly efficacious in the short term against confirmed symptomatic COVID-19 disease, appear to be efficacious against severe COVID-19 outcomes such as hospitalization or death, and may reduce infection and transmission of the COVID-19 virus;

AND WHEREAS pursuant to subsection 56(1) of the Act, I, as the Chief Public Health Officer, may require any person to provide information that the Chief Public Health Officer reasonably considers necessary to:

- (a) assess the threat that a disease presents to public health and plan for and address the threat; or
- (b) evaluate and monitor the health and safety of the general public.

AND WHEREAS pursuant to section 60 of the Act, a public health official may request assistance from a peace officer in conducting an inspection, investigation, inquiry, search or in enforcing an order made under the Act;

AND WHEREAS I believe that the persons entering a long-term care facility or nursing home and the movement of staff between long-term care facilities and nursing homes can promote the transmission of COVID-19 and increase the risk of infection with COVID-19 of persons in care and staff;

AND WHEREAS considering the mental health of certain individuals who are residents of certain facilities, I have determined there are certain asymptomatic individuals who should be able to enter these facilities and visit with residents during this pandemic;

AND WHEREAS pursuant to clause 49(2)(a) of the Act, I may take special measures during a state of public health emergency including, but not limited to, issuing directions for the purpose of controlling infection to an institution, health facility, corporation, health care organization, health professional or health care provider;

AND WHEREAS, at the time of making this Order, recommendations from the National Advisory Committee on Immunization inform that approximately two weeks after receiving a completed series, currently authorized vaccines in Canada have been shown to be highly efficacious in the short term against confirmed symptomatic COVID-19 disease, appear to be efficacious against severe COVID-19 outcomes such as hospitalization or death, and may reduce asymptomatic infection and transmission of the COVID-19 virus;

AND WHEREAS the *Community Care Facilities and Nursing Homes Act*, RSPEI 1988, Cap. C-13 Regulations and Nursing Home Regulations provide that all staff on duty shall be free of communicable disease in a communicable form, and all staff on duty shall be free of communicable disease that poses a significant risk to the residents, respectively, and that staff may be required by an inspector or a public health officer to undergo medical examination;

AND WHEREAS pursuant to clause 49(2)(a) of the Act, I may take special measures during a state of public health emergency including, but not limited to, issuing directions for the purpose of controlling infection to an institution, health facility, corporation, health care organization, health professional or health care provider;

AND WHEREAS pursuant to clause 49(2)(g) of the Act, I may take any other measure I reasonably believe is necessary for the protection of the health of the population during the public health emergency;

AND WHEREAS pursuant to subsection 39(1) of the Act, I, as the Chief Public Health Officer, may require a person to take or refrain from taking any action that is specified in this Order in respect of a communicable disease;

AND WHEREAS I, as the Chief Public Health Officer, pursuant to subsection 39(2) of the Act, believe on reasonable and probable grounds that:

- (a) a communicable disease, COVID-19, including any new variants of the virus causing COVID-19, exists or may exist in the Province;
- (b) the communicable disease presents a risk to the health of persons in the Province; and
- (c) the requirements specified in this Order are necessary to prevent, decrease or eliminate the risk to health presented by the communicable disease;

AND WHEREAS pursuant to subsection 56(1) of the Act, I, as the Chief Public Health Officer, may require any person to provide information that the Chief Public Health Officer reasonably considers necessary to assess the threat that a disease presents to public health and plan for and address the threat or evaluate and monitor the health and safety of the general public.

AND WHEREAS the reasons for this Order are the global COVID-19 pandemic, the health risks posed by the pandemic, including health risks posed by new variants of the virus causing COVID-19,

and the necessity to prevent, decrease or eliminate those health risks in the facilities that are subject to this Order;

AND WHEREAS, at the time of making this Order, recommendations from the National Advisory Committee on Immunization inform that approximately two weeks after receiving a completed series, currently authorized vaccines in Canada have been shown to be highly efficacious in the short term against confirmed symptomatic COVID-19 disease, appear to be efficacious against severe COVID-19 outcomes such as hospitalization or death, and may reduce infection and transmission of the COVID-19 virus;

AND WHEREAS the majority of COVID-19 cases currently occur among individuals who are not vaccinated with an authorized vaccine, and unvaccinated individuals increase the likelihood of transmission to other vaccinated and unvaccinated individuals;

AND WHEREAS community care facilities, long-term care facilities and nursing homes are closed facilities with direct patient care among vulnerable residents which increases the risk of individual disease transmission and outbreaks;

AND WHEREAS the vaccination and testing of individuals who work in the facilities subject to this Order, and the sharing of the information relating to this vaccination and testing with me, will assist to prevent transmission of the virus and the associated illness and death and to protect the residents and staff of the facilities subject to this Order;

NOW THEREFORE pursuant to my authority granted under sections 39, subsection 49(2) and section 56 of the Act, I hereby order as follows:
