TO: All persons residing in or present in Prince Edward Island; and

AND WHEREAS in consultation with the Lieutenant Governor in Council, I believe it is reasonably necessary to impose special measures in Prince Edward Island (“the Province”) in order to protect the health of the population;

AND WHEREAS pursuant to subsection 39(1) of the Act, I, as the Chief Public Health Officer, may require a person to take or refrain from taking any action that is specified in this Order in respect of a communicable disease;

AND WHEREAS I, as the Chief Public Health Officer, pursuant to subsection 39(2) of the Act, believe on reasonable and probable grounds that:

- (a) a communicable disease, COVID-19, including any new variants of the virus causing COVID-19, exists or may exist in the Province;
- (b) the communicable disease presents a risk to the health of persons in the Province; and
- (c) the requirements specified in this Order are necessary to prevent, decrease or eliminate the risk to health presented by the communicable disease;

AND WHEREAS pursuant to clauses 49(2)(c.1), (d) and (e) of the Act, I, as the Chief Public Health Officer, may order persons to refrain from entering or attending a public place or premises; to refrain from assembling in a public gathering in a specified area; limit the number of persons who will be permitted to attend a public gathering; limit the purpose for a public gathering or to refrain from travelling to or from any area of the province or on any road, street or highway;

AND WHEREAS pursuant to clause 49(2)(g) of the Act, I, as the Chief Public Health Officer, may order any other measure that is reasonably believed to be necessary for the protection of the health of the population during the public health emergency and pursuant to subsection 49(3) of the Act, I may require a person or class of persons who I reasonably believe is not protected against a communicable disease to take preventative measures;

AND WHEREAS the reasons for this Order are the global COVID-19 pandemic, the health risks posed by the pandemic, including health risks posed by new variants of the virus causing COVID-19, and the necessity to prevent, decrease or eliminate those health risks;

AND WHEREAS testing and isolating individuals who test positive for COVID-19, and any variants of concern, will prevent transmission of the virus and the associated illness and death and protect Prince Edward Island's health care system;

AND WHEREAS, at the time of making this Order, recommendations from the National Advisory Committee on Immunization inform that approximately two weeks after receiving a completed series, currently authorized vaccines in Canada have been shown to be highly efficacious in the short term against confirmed symptomatic COVID-19 disease, appear to be efficacious against severe COVID-19 outcomes such as hospitalization or death, and may reduce infection and transmission of the COVID-19 virus;

AND WHEREAS the majority of COVID-19 cases currently occur among individuals who are not vaccinated with an authorized vaccine, and unvaccinated individuals increase the likelihood of transmission to other vaccinated and unvaccinated individuals; and while substantial progress has been made in vaccinating the population of PEI 12 years of age and older, a significant portion of the public is unvaccinated which may lead to an increase in cases, hospitalizations, and intensive care admissions, primarily in unvaccinated people;

AND WHEREAS some events/activities are known to increase the risk of COVID-19 disease transmission and outbreaks; various options for establishing vaccine status, including in paper and online format, are readily available to members of the public; and programs that require that proof of vaccination be provided have been shown to increase vaccination uptake in populations, thereby reducing the public health risk of COVID-19;

AND WHEREAS I recognize the effect which the measures I am putting in place to protect the health of the public have on persons who are unvaccinated and, with this in mind, have engaged and will continue to engage in a process of reconsideration of these measures, based upon the information and evidence available to me, including infection rates, sources of transmission, the presence of clusters and outbreaks, the number of people in hospital and in intensive care, deaths, the emergence of and risks posed by virus variants of concern, vaccine availability, immunization rates, the vulnerability of particular populations, and reports from the rest of Canada and other jurisdictions, with a view to balancing the interests of the people affected by this Order, including constitutionally protected interests, against the risk of harm to the public health created by unvaccinated persons;

AND WHEREAS further relaxation of public health measures may occur after a greater proportion of the population of PEI is vaccinated which will be aided by Health Canada approval, availability, and uptake of a pediatric vaccine over the next several months;

AND WHEREAS pursuant to subsection 56(1) of the Act, I, as the Chief Public Health Officer, may require any person to provide information that the Chief Public Health Officer reasonably considers necessary to:

- (a) assess the threat that a disease presents to public health and plan for and address the threat; or
- (b) evaluate and monitor the health and safety of the general public;

AND WHEREAS pursuant to section 60 of the Act, a public health official may request assistance from a peace officer in conducting an inspection, investigation, inquiry, search or in enforcing an order made under the Act;

AND WHEREAS pursuant to subsection 61(4) of the Act, no person shall knowingly provide false or misleading information, either orally or in writing, to a public health official;

AND WHEREAS I believe that the persons entering a long-term care facility or nursing home and the movement of staff between long-term care facilities and nursing homes can promote the transmission of COVID-19 and increase the risk of infection with COVID-19 of persons in care and staff;

AND WHEREAS considering the mental health of certain individuals who are residents of certain facilities, I have determined there are certain asymptomatic individuals who should be able to enter these facilities and visit with residents during this pandemic;

AND WHEREAS pursuant to clause 49(2)(a) of the Act, I may take special measures during a state of public health emergency including, but not limited to, issuing directions for the purpose of controlling infection to an institution, health facility, corporation, health care organization, health professional or health care provider;

AND WHEREAS pursuant to clause 49(2)(g) of the Act, I may take any other measure I reasonably believe is necessary for the protection of the health of the population during the public health emergency;

AND WHEREAS the reasons for this Order are the global COVID-19 pandemic, the health risks posed by the pandemic, including health risks posed by new variants of the virus causing COVID-19, and the necessity to prevent, decrease or eliminate those health risks;

AND WHEREAS, at the time of making this Order, recommendations from the National Advisory Committee on Immunization inform that approximately two weeks after receiving a completed series, currently authorized vaccines in Canada have been shown to be highly efficacious in the short term against confirmed symptomatic COVID-19 disease, appear to be efficacious against severe COVID-19 outcomes such as hospitalization or death, and may reduce asymptomatic infection and transmission of the COVID-19 virus;

NOW THEREFORE pursuant to my authority granted under subsection 49(2) of the Act, I hereby order as follows.

1. In this Order, the definitions in the COVID-19 Prevention and Self-Isolation Order, as may be amended from time to time, apply and have the same meaning in this Order except as otherwise defined in this Order, and:

- (i) “designated visitors” means individuals designated by the Resident or the Resident’s Guardian to visit the Resident primarily for social or other supportive reasons, including family and friends but do not including multiple-resident visitors;
- (ii) “facility” means a long-term care facility or a nursing home;
- (iii) “long-term care facility or nursing home” means the following establishments:
 - (i) nursing homes as defined under clause 1(j) of the *Community Care Facilities and Nursing Homes Act*, RSPEI 1988, c C-13; and

FACILITY VISITATION

2. Visitation to long-term care facilities and nursing homes (“facility” or “facilities”) is permitted at a facility provided the facility complies with the measures outlined in this Order.
3. Residents may have up to three partners in care.
4. Partners in care may visit the resident, individually or together with other partners in care or designated visitors, at any time of the day, with no restriction on frequency or length of visits, on the conditions that the partner in care’s presence in the facility cannot have a negative impact on the care of any resident in the facility and that all infection control measures to protect resident, public and staff safety are followed.
5. Residents may have an unlimited number of designated visitors, and designated visitors must follow all facility infection control measures to protect resident, public and staff safety.
6. Partners in care and designated visitors must comply with the following measures to visit a facility:
 - i. They must receive an orientation by facility staff prior to beginning visitation at the facility;

-
- ii. They must provide their full name and contact information to the facility and be screened for COVID-19 upon entry to the facility;
 - iii. They must be asymptomatic of COVID-19;
 - iv. They must perform hand hygiene, where indicated, upon entry to the facility and upon exit from the facility;
 - v. They must follow a facility's infection control guidelines, and visit during the visiting hours of a facility, unless there are exceptional circumstances as agreed to with facility staff;

 - vii. During visits with the resident, they must wear a medical mask in a long-term care facility or wear a non-medical mask in facilities other than a long-term care facility. Partners in Care, Designated Visitors or the Resident, respectively may visit in an outdoor setting without masks if they maintain physical distancing of two metres from each other.
 - viii. They shall only visit one resident at a facility;
 - ix. They may be accompanied by dependents during visits if the partners in care or designated visitors exercise responsibility for the minor dependents during the visit. For greater certainty, visiting dependents who must be cared for by a parent or guardian are considered designated visitors for purposes of this Order but will not be counted in any designated visitor limit of the resident;
 - x. Partners in care and designated visitors who have travelled outside of Prince Edward Island in the 14 days prior to a visit are not allowed to visit a resident, unless the partner in care or designated visitor is fully vaccinated and has tested negative for COVID-19 after return from any travel outside Atlantic Canada in the 14 days prior to visiting the resident, or:
 - A) the resident is a palliative individual or a person being actively treated for a life threatening illness which may end their life;
 - B) the partner in care or designated visitor has received an Authorized Designated Visitor form signed by the facility administrator and the resident's attending physician in advance of the visit, which form details the name of the partner in care or designated visitor, the name of the resident and facility being visited, and the date(s) of the visit(s); and
 - C) the partner in care or designated visitor wears full personal protective equipment such as gown, gloves and mask ("PPE") during the visit(s).
7. Except in accordance with clause 6(x) or as outlined in this Order, no person is permitted to attend at the facility for any purpose until they have been in Prince Edward Island for a continuous period of 14 days.
 8. Notwithstanding section 6, fully vaccinated partners in care and fully vaccinated designated visitors may visit with fully vaccinated residents in an outdoor setting without masks, and may visit with fully vaccinated residents indoors in the resident's room without masks, if they maintain physical distancing of two metres from persons at the facility, other than the resident.

COVID-19 VISITATION

9. Partners in care and designated visitors must comply with the following requirements in a COVID-19 care area of the facility:
 - i. Designated visitors cannot attend any COVID-19 care area of the facility when COVID-19 cases are present;
 - ii. Except as outlined in section 10, designated visitors cannot visit with a resident with a confirmed or suspected case of COVID-19, regardless of the medical condition of the resident;
 - iii. Partners in care may visit with a resident with a confirmed or suspected case of COVID-19 provided the partners in care wear full PPE during visits.

PALLIATIVE VISITATION

10. Notwithstanding sections 3 and 6, if a resident is a palliative individual or a person being treated for a life threatening illness which may end their life, including COVID-19 (with full PPE), there is no limit to the number of partners in care or designated visitors allowed to visit the Resident provided facility infection control measures are followed.

VISITATION OUTSIDE THE FACILITY

11. A resident may, as a designated visitor or a partner in care, visit a family member who is a resident of a different facility provided that all infection control measures of both facilities are maintained by the resident.
12. In accordance with details provided to facility staff, a resident may leave their facility independently, if able, or with one or more partners in care or designated visitors, to drive in a vehicle, provided the residents, partners in care and designated visitors follow all facility-provided infection control measures. The Resident may disembark to attend church or to access community-based services and settings, such as personal care service providers, provided the resident follows all facility-provided infection control measures and the CPHO COVID-19 Prevention and Self-isolation Order.
13. In accordance with details provided to facility staff, a resident may leave their facility to attend at their own property, such as a cottage, for a pre-determined amount of time, independently or with one or more partners in care or designated visitors, if residents, partners in care and designated visitors follow all facility-provided infection control measures. The resident must not have any contact with persons other than their partners in care or designated visitors during this leave unless the resident maintains a distance of two metres from these persons, and the personal gathering limits in the COVID-19 Prevention and Self-Isolation Order are followed.
14. In accordance with details provided to facility staff, a resident may leave their facility to visit or stay overnight with any or all of their partners in care or designated visitors at the primary residence of a partner in care or of a designated visitor, if the resident, partners in care and designated visitors follow all facility-provided infection control measures. The resident must not have any contact with persons other than their partners in care or designated visitors during this leave unless the resident maintains a distance of two metres from these persons, and the personal gathering limits in the COVID-19 Prevention and Self-Isolation Order are followed.
15. Notwithstanding section 12, 13 and 14, fully vaccinated residents may, without masks and without physical distancing, visit with fully vaccinated partners in care and fully vaccinated designated visitors in an outdoor setting or an indoor setting, at the resident's property or at the primary residence

of a partner in care or of a designated visitor, but the resident must maintain a distance of two metres from persons other than the partner in care or designated visitor during these visits.

VISITOR CONTACT TRACING

16. Facilities shall maintain a contact-tracing record each day for each resident to include all contacts made with other persons by a resident including partners in care, designated visitors, or any contacts in an exceptional life circumstance approved by a facility in section 26 of this Order, which contact-tracing record shall contain full names, phone numbers and date and time of visits.
17. Facilities must keep the contact-tracing records under section 16 for one month after the day of creation to facilitate contact tracing by the Chief Public Health Officer in the event of a COVID-19 infection situation, and facilities must have an internal process in place to quickly retrieve these records, should the records be needed, including on weekends.
18. Facilities must store the contact-tracing records under section 16 in a safe, secure location for one month after creation of the records and then dispose of the records using a secure destruction method to maintain the confidentiality of personal information collected under this section. For paper records, secure destruction means, at minimum, cross-cut shredding.

FACILITY CHURCH SERVICES

19. Facilities may offer church services at the facility if the facility:
 - i. complies with the applicable Chief Public Health Officer COVID-19 Public Health Guidance, as may be amended from time to time;
 - ii. complies with the Chief Public Health Officer Entertainment Guidance for Long-term Care and Community Care, as may be amended from time to time; and
 - iii. ensures all persons present at the service are recorded in a contact-tracing record, in accordance with sections 16 to 18.

STAFF MOVEMENT

20. An operator of a long term care facility or nursing home is prohibited from permitting staff, who have had direct patient contact with a confirmed COVID-19 case at a hospital, to work in a long-term care facility or nursing home until 14 days following the staff's last patient contact.
21. An operator of a long-term care facility or nursing home is prohibited from permitting unvaccinated staff to work in multiple long-term care facility or nursing home locations. For greater certainty, this section does not restrict unvaccinated staff from engaging in other employment that is not at another long-term care facility or nursing home. For example, unvaccinated staff are permitted to work in other employment at community care facilities, hospitals, health centres and community-based programs and services.
22. An operator of a long term care facility or nursing home is prohibited from permitting vaccinated staff to work in multiple long term care facility or nursing home locations if the vaccinated staff do not follow all testing and infection, prevention and control measures as required by the Chief Public Health Officer.  - (x) persons exempted by the Chief Public Health Officer, in exceptional circumstances.
24. For the purpose of this Order, Margaret Stewart Ellis Home and Community Hospital O'Leary are considered as one location.

GENERAL

25. Facilities must monitor the rates of COVID-19 vaccination among their residents. For facilities with a rate of fully vaccinated residents of lower than 85%, those facilities should use extra caution with infection control, including cleaning of the facility, and are strongly advised to consider the use of these alternative restrictions in their facilities:
- (i) Designated visitors should meet with residents in designated areas only;
 - (ii) Residents should not leave the facility with designated visitors;
 - (iii) Residents should only leave the facility with a partner in care and should only disembark with a partner in care;
 - (iv) Residents should not attend public places, unless the attendance at the public place is for an essential purpose such as a medical appointment or banking.
26. At the request of a resident, medical staff at a facility may, in exceptional life circumstances, make exemptions to the restrictions in this Order. Any exemption made by medical staff under this section must be made in consultation with the facility administrator, and the facility administrator shall keep a record of all exemptions made under this section.
27. Notwithstanding anything in this Order, the Chief Public Health Officer may:
- (i) exempt a person or class of persons from the application of any section of this Order under exceptional circumstances or on reasonable grounds; and
