AND WHEREAS in consultation with the Lieutenant Governor in Council, I believe it is reasonably necessary to impose special measures in Prince Edward Island (“the Province”) in order to protect the health of the population;

AND WHEREAS pursuant to subsection 39(1) of the Act, I, as the Chief Public Health Officer, may require a person to take or refrain from taking any action that is specified in this Order in respect of a communicable disease;

AND WHEREAS I, as the Chief Public Health Officer, pursuant to subsection 39(2) of the Act, believe on reasonable and probable grounds that:

- (a) a communicable disease, COVID-19, including any new variants of the virus causing COVID-19, exists or may exist in the Province;
- (b) the communicable disease presents a risk to the health of persons in the Province; and
- (c) the requirements specified in this Order are necessary to prevent, decrease or eliminate the risk to health presented by the communicable disease;

AND WHEREAS pursuant to clauses 49(2)(c.1), (d) and (e) of the Act, I, as the Chief Public Health Officer, may order persons to refrain from entering or attending a public place or premises; to refrain from assembling in a public gathering in a specified area; limit the number of persons who will be permitted to attend a public gathering; limit the purpose for a public gathering or to refrain from travelling to or from any area of the province or on any road, street or highway;

AND WHEREAS pursuant to clause 49(2)(g) of the Act, I, as the Chief Public Health Officer, may order any other measure that is reasonably believed to be necessary for the protection of the health of the population during the public health emergency and pursuant to subsection 49(3) of the Act, I may require a person or class of persons who I reasonably believe is not protected against a communicable disease to take preventative measures;

AND WHEREAS the reasons for this Order are the global COVID-19 pandemic, the health risks posed by the pandemic, including health risks posed by new variants of the virus causing COVID-19, and the necessity to prevent, decrease or eliminate those health risks;

AND WHEREAS testing and isolating individuals who test positive for COVID-19, and any variants of concern, will prevent transmission of the virus and the associated illness and death and protect Prince Edward Island's health care system;

AND WHEREAS, at the time of making this Order, recommendations from the National Advisory Committee on Immunization inform that approximately two weeks after receiving a completed series, currently authorized vaccines in Canada have been shown to be highly efficacious in the short term against confirmed symptomatic COVID-19 disease, appear to be efficacious against severe COVID-19 outcomes such as hospitalization or death, and may reduce infection and transmission of the COVID-19 virus;

AND WHEREAS the majority of COVID-19 cases currently occur among individuals who are not vaccinated with an authorized vaccine, and unvaccinated individuals increase the likelihood of transmission to other vaccinated and unvaccinated individuals; and while substantial progress has been made in vaccinating the population of PEI 12 years of age and older, a significant portion of the public is unvaccinated which may lead to an increase in cases, hospitalizations, and intensive care admissions, primarily in unvaccinated people;

AND WHEREAS some events/activities are known to increase the risk of COVID-19 disease transmission and outbreaks; various options for establishing vaccine status, including in paper and online format, are readily available to members of the public; and programs that require that proof of vaccination be provided have been shown to increase vaccination uptake in populations, thereby reducing the public health risk of COVID-19;

AND WHEREAS I recognize the effect which the measures I am putting in place to protect the health of the public have on persons who are unvaccinated and, with this in mind, have engaged and will continue to engage in a process of reconsideration of these measures, based upon the information and evidence available to me, including infection rates, sources of transmission, the presence of clusters and outbreaks, the number of people in hospital and in intensive care, deaths, the emergence of and risks posed by virus variants of concern, vaccine availability, immunization rates, the vulnerability of particular populations, and reports from the rest of Canada and other jurisdictions, with a view to balancing the interests of the people affected by this Order, including constitutionally protected interests, against the risk of harm to the public health created by unvaccinated persons;

AND WHEREAS further relaxation of public health measures may occur after a greater proportion of the population of PEI is vaccinated which will be aided by Health Canada approval, availability, and uptake of a pediatric vaccine over the next several months;

AND WHEREAS pursuant to subsection 56(1) of the Act, I, as the Chief Public Health Officer, may require any person to provide information that the Chief Public Health Officer reasonably considers necessary to:

- (a) assess the threat that a disease presents to public health and plan for and address the threat; or
- (b) evaluate and monitor the health and safety of the general public;

AND WHEREAS pursuant to section 60 of the Act, a public health official may request assistance from a peace officer in conducting an inspection, investigation, inquiry, search or in enforcing an order made under the Act;

AND WHEREAS pursuant to subsection 61(4) of the Act, no person shall knowingly provide false or misleading information, either orally or in writing, to a public health official;
