COVID-19 PREVENTION AND SELF-ISOLATION ORDER

TO: All persons residing in or present in Prince Edward Island; and

All businesses, services and organizations operating or carrying on business in Prince Edward Island

WHEREAS a state of public health emergency was declared in Prince Edward Island on March 16, 2020 as a result of the COVID-19 pandemic pursuant to Order in Council EC2020-174, and continued on April 15, 2020 by Order in Council EC2020-254, on May 15, 2020 by Order in Council EC2020-305, on June 15, 2020 by Order in Council EC2020-350, on July 14, 2020 by Order in Council EC2020-435, on August 14, 2020 by Order in Council EC2020-488, on September 13, 2020 by Order in Council EC2020-542, on October 13, 2020 by Order in Council EC2020-603, on November 12, 2020 by Order in Council EC2020-649, on December 12, 2020 by Order in Council EC2020-724, on January 11, 2021 by Order in Council EC2021-1, on February 10, 2021 by EC2021-71, on March 12, 2021 by Order in Council EC2021-138, on April 11, 2021 by Order-in-Council EC2021-271, on May 11, 2021 by Order-in-Council EC2021-407, on June 10, 2021 by Order-in-Council EC2021-494, on July 10, 2021 by Order-in-Council EC2021-577, on August 9, 2021 by Order-in-Council EC2021-658; on September 8, 2021 by Order-in-Council EC2021-733, on October 8, 2021 by Order-in-Council EC2021-813, on November 7, 2021 by Order-in-Council EC2021-909; on December 7, 2021 by Order-in-Council EC2021-993 and on January 6, 2022 by Order-in-Council EC2021-1061;

AND WHEREAS in consultation with the Lieutenant Governor in Council, I believe it is reasonably necessary to impose special measures in Prince Edward Island (“the Province”) in order to protect the health of the population;

AND WHEREAS pursuant to subsection 39(1) of the Act, I, as the Chief Public Health Officer, may require a person to take or refrain from taking any action that is specified in this Order in respect of a communicable disease;

AND WHEREAS I, as the Chief Public Health Officer, pursuant to subsection 39(2) of the Act, believe on reasonable and probable grounds that:

- (a) a communicable disease, COVID-19, including any new variants of the virus causing COVID-19, exists or may exist in the Province;
- (b) the communicable disease presents a risk to the health of persons in the Province; and
- (c) the requirements specified in this Order are necessary to prevent, decrease or eliminate the risk to health presented by the communicable disease;

AND WHEREAS pursuant to clauses 49(2)(c.1), (d) and (e) of the Act, I, as the Chief Public Health Officer, may order persons to refrain from entering or attending a public place or premises; to refrain from assembling in a public gathering in a specified area; limit the number of persons who will be permitted to attend a public gathering; limit the purpose for a public gathering or to refrain from travelling to or from any area of the province or on any road, street or highway;

AND WHEREAS pursuant to clause 49(2)(g) of the Act, I, as the Chief Public Health Officer, may order any other measure that is reasonably believed to be necessary for the protection of the health of the population during the public health emergency and pursuant to subsection 49(3) of the Act, I may require a person or class of persons who I reasonably believe is not protected against a communicable disease to take preventative measures;

AND WHEREAS the reasons for this Order are the global COVID-19 pandemic, the health risks posed by the pandemic, including health risks posed by new variants of the virus causing COVID-19, and the necessity to prevent, decrease or eliminate those health risks;

AND WHEREAS testing and isolating individuals who test positive for COVID-19, and any variants of concern, will prevent transmission of the virus and the associated illness and death and protect Prince Edward Island's health care system;

AND WHEREAS, at the time of making this Order, recommendations from the National Advisory Committee on Immunization inform that approximately two weeks after receiving a primary series and particularly after having received a booster dose six months following the primary series, currently authorized vaccines in Canada have been shown to be efficacious in the short term against confirmed symptomatic COVID-19 disease, appear to be efficacious against severe COVID-19 outcomes such as hospitalization or death, and may reduce infection and transmission of the COVID-19 virus;

AND WHEREAS unvaccinated individuals increase the likelihood of transmission to other vaccinated and unvaccinated individuals; and while substantial progress has been made in vaccinating the population of PEI 12 years of age and older, and a new pediatric vaccine is being administered to children 5 to 11 years of age, a significant portion of the public is unvaccinated which may lead to an increase in cases, hospitalizations, and intensive care admissions, primarily in unvaccinated people;

AND WHEREAS some events and activities are known to increase the risk of COVID-19 disease transmission and outbreaks; various options for establishing vaccine status, including in paper and online format, are readily available to members of the public; and programs that require that proof of vaccination be provided at some events and activities may reduce the public health risk of COVID-19;

AND WHEREAS I recognize the effect which the measures I am putting in place to protect the health of the public have on persons in PEI, including those who are unvaccinated and, with this in mind, have engaged and will continue to engage in a process of reconsideration of these measures, based upon the information and evidence available to me, including infection rates, sources of transmission, the presence of clusters and outbreaks, the number of people in hospital and in intensive care, deaths, the emergence of and risks posed by virus variants of concern, vaccine availability, immunization rates, the vulnerability of particular populations, and reports from the rest of Canada and other jurisdictions, with a view to balancing the interests of the people affected by this Order, including constitutionally protected interests, against the risk of harm to the public health created by the gathering of persons, including unvaccinated persons;

AND WHEREAS further relaxation of public health measures may occur after a greater proportion of the population of PEI is fully vaccinated, booster doses are provided for high-risk individuals and uptake is increased for Health Canada's November 2021-approved pediatric vaccine over the next several months;

AND WHEREAS pursuant to subsection 56(1) of the Act, I, as the Chief Public Health Officer, may require any person to provide information that the Chief Public Health Officer reasonably considers necessary to:

- (a) assess the threat that a disease presents to public health and plan for and address the threat; or
- (b) evaluate and monitor the health and safety of the general public;

AND WHEREAS pursuant to section 60 of the Act, a public health official may request assistance from a peace officer in conducting an inspection, investigation, inquiry, search or in enforcing an order made under the Act;

AND WHEREAS pursuant to subsection 61(4) of the Act, no person shall knowingly provide false or misleading information, either orally or in writing, to a public health official;

AND STAFF MOVEMENT ORDER**

WHEREAS a state of public health emergency was declared in Prince Edward Island on March 16, 2020 as a result of the COVID-19 pandemic pursuant to Order in Council EC2020-174, and continued on April 15, 2020 by Order in Council EC2020-254, on May 15, 2020 by Order in Council EC2020-305, on June 15, 2020 by Order in Council EC2020-350, on July 14, 2020 by Order in Council EC2020-435, on August 14, 2020 by Order in Council EC2020-488, on September 13, 2020 by Order in Council EC2020-542, on October 13, 2020 by Order in Council EC2020-603, on November 12, 2020 by Order in Council EC2020-649, on December 12, 2020 by Order in Council EC2020-724, on January 11, 2021 by Order in Council EC2021-1, on February 10, 2021 by EC2021-71, on March 12, 2021 by Order in Council EC2021-138, on April 11, 2021 by Order in Council EC2021-271, on May 11, 2021 by Order-in-Council EC2021-407, on June 10, 2021 by Order-in-Council EC2021-494, on July 10, 2021 by Order-in-Council EC2021-577, on August 9, 2021 by Order-in-Council EC2021-658, on September 8, 2021 by Order-in-Council EC2021-733, on October 8, 2021 by Order-in-Council EC2021-813, on November 7, 2021 by Order-in-Council EC2021-909, on December 7, 2021 by Order-in-Council EC2021-993 and on January 6, 2022 by Order-in-Council EC2021-1061;

AND WHEREAS I believe that the persons entering a long-term care facility or nursing home and the movement of staff between long-term care facilities and nursing homes can promote the transmission of COVID-19 and increase the risk of infection with COVID-19 of persons in care and staff;

AND WHEREAS considering the mental health of certain individuals who are residents of certain facilities, I have determined there are certain asymptomatic individuals who should be able to enter these facilities and visit with residents during this pandemic;

AND WHEREAS pursuant to clause 49(2)(a) of the Act, I may take special measures during a state of public health emergency including, but not limited to, issuing directions for the purpose of controlling infection to an institution, health facility, corporation, health care organization, health professional or health care provider;

AND WHEREAS pursuant to clause 49(2)(g) of the Act, I may take any other measure I reasonably believe is necessary for the protection of the health of the population during the public health emergency;

AND WHEREAS the reasons for this Order are the global COVID-19 pandemic, the health risks posed by the pandemic, including health risks posed by new variants of the virus causing COVID-19, and the necessity to prevent, decrease or eliminate those health risks;

AND WHEREAS, at the time of making this Order, recommendations from the National Advisory Committee on Immunization inform that approximately two weeks after receiving a primary series and particularly after having received a booster dose 6 months following the primary series, currently authorized vaccines in Canada have been shown to be efficacious in the short term against confirmed symptomatic COVID-19 disease, appear to be efficacious against severe COVID-19 outcomes such as hospitalization or death, and may reduce asymptomatic infection and transmission of the COVID-19 virus;

AND WHEREAS on October 4, 2021 the Chief Public Health Officer, in keeping with recommendations from the National Advisory Committee on Immunization, provided direction to long-term care and community care facilities to provide COVID-19 booster doses to all residents who are six (6) months past their primary vaccination series, and booster doses are now recommended for all residents of long-term care and community care facilities to increase the immune response and provide further protection against infection;

AND WHEREAS, in September 2021 and pursuant to my authority under the Act, I issued a Vaccination Information and Testing Order for community care facilities, long-term care facilities and nursing homes, as may be amended from time to time;

NOW THEREFORE pursuant to my authority granted under subsection 49(2) of the Act, I hereby order as follows.

1. In this Order, the definitions in the Chief Public Health Officer COVID-19 Prevention and Self-Isolation Order, as may be amended from time to time (“the COVID-19 Prevention and Self-isolation Order”), apply and have the same meaning in this Order except as otherwise defined in this Order, and:

4. Partners in care may visit the resident, individually or together with other partners in care, at any time of the day, with no restriction on frequency or length of visits, on the conditions that the partner in care's presence in the facility cannot have a negative impact on the care of any resident in the facility and that all infection control measures to protect resident, public and staff safety are followed by the partner in care.

 - viii. They shall only visit one resident at a facility;
 - ix. They may be accompanied by dependents during visits if the partners in care or designated visitors exercise responsibility for the dependents during the visit. For greater certainty, visiting dependents who must be cared for by a parent or guardian are considered designated visitors for purposes of this Order;
 - x. Partners in care and designated visitors who have travelled outside of Prince Edward Island in the 14 days prior to a visit are not allowed to visit a resident after returning from domestic or international travel, unless the partner in care or designated visitor follows the post-travel testing schedule applicable to them, as required by the Chief Public Health Officer, or:
 - A) the resident is a palliative individual or a person being actively treated for a life threatening illness which may end their life;

- B) the partner in care or designated visitor (for palliative visits only) has received an Authorized Designated Visitor form signed by the facility administrator and the resident's attending physician in advance of the visit, which form details the name of the partner in care or designated visitor, the name of the resident and facility being visited, and the date(s) of the visit(s); and
 - C) the partner in care or designated visitor wears full personal protective equipment such as gown, gloves and mask ("PPE") during the visit(s).
7. Except in accordance with clause 6(x) or as outlined in this Order and subject to sections 8 and 9, no person is permitted to attend at a facility for any purpose until they have been in Prince Edward Island for a continuous period of 14 days.
 8. Individuals, who are staff who have entered Prince Edward Island after domestic travel, must follow the post-travel testing schedule applicable to them, as required by the Chief Public Health Officer, must receive at least one negative test before returning to work, and must wear a medical grade mask while at work during the post-travel testing schedule. When possible, staff should not return to work until they receive a second negative test on day four (4).

PALLIATIVE VISITATION

12. Notwithstanding sections 3 and 6, if a resident is a palliative individual or a person is being treated for a life-threatening illness which may end their life, including COVID-19 (with full PPE), there is no limit to the number of partners in care or designated visitors allowed to visit the Resident provided facility infection control measures are followed.

VISITATION OUTSIDE THE FACILITY

13. A fully vaccinated resident who has received a booster dose may, as a partner in care, visit a family member who is a resident of a different facility provided that all infection control measures of both facilities are maintained by the resident.
14. Residents shall not attend public places, unless the attendance at the public place is for an essential purpose such as a medical appointment, and the resident follows all facility-provided infection control measures and the COVID-19 Prevention and Self-isolation Order.

VISITOR CONTACT TRACING

15. Facilities shall maintain a contact-tracing record each day for each resident to include all contacts made by a resident with other persons, including partners in care, designated visitors or any contacts in an exceptional life circumstance approved by a facility in section 25 of this Order, which contact-tracing record shall contain full names, phone numbers and date and time of visits.
16. Facilities must keep the contact-tracing records under section 15 for one month after the day of creation to facilitate contact tracing by the Chief Public Health Officer in the event of a COVID-19 infection situation, and facilities must have an internal process in place to quickly retrieve these records, should the records be needed, including on weekends.
17. Facilities must store the contact-tracing records under section 15 in a safe, secure location for one month after creation of the records and then dispose of the records using a secure destruction method to maintain the confidentiality of personal information collected under this section. For paper records, secure destruction means, at minimum, cross-cut shredding.

FACILITY CHURCH SERVICES

18. Facilities may offer church services at the facility if the facility:
 - i. complies with the applicable Chief Public Health Officer COVID-19 Public Health Guidance, as may be amended from time to time; and
 - ii. ensures all persons present at the service are recorded in a contact-tracing record, in accordance with sections 15 to 17.

20. An operator of a long-term care facility or nursing home is prohibited from permitting unvaccinated staff to work in multiple long-term care facility or nursing home locations. For greater certainty, this section does not restrict unvaccinated staff from engaging in other employment that is not at another long-term care facility or nursing home. For example, unvaccinated staff are permitted to work in other employment at community care facilities, hospitals, health centres and community-based programs and services.
21. An operator of a long term care facility or nursing home is prohibited from permitting vaccinated staff to work in multiple long term care facility or nursing home locations if the vaccinated staff do

 - (x) persons exempted by the Chief Public Health Officer, in exceptional circumstances.
23. For the purpose of this Order, Margaret Stewart Ellis Home and Community Hospital O'Leary are considered as one location.

GENERAL

24. Facilities must monitor the rates of COVID-19 vaccination among their residents. For facilities with a rate of fully vaccinated residents of lower than 85%, those facilities should use extra caution with infection control, including cleaning of the facility.
25. At the request of a resident, medical staff at a facility may, in exceptional life circumstances, make exemptions to the restrictions in this Order. Any exemption made by medical staff under this section must be made in consultation with the facility administrator, and the facility administrator shall keep a record of all exemptions made under this section.
