**IN THE MATTER OF the *Public Health Act*, RSPEI 1988, Cap. P-30.1 (the “Act”)**

**COVID-19 PREVENTION AND SELF-ISOLATION ORDER**

**TO:** All persons residing in or present in Prince Edward Island; and

All businesses, services and organizations operating or carrying on business in Prince Edward Island

**WHEREAS** a state of public health emergency was declared in Prince Edward Island on March 16, 2020 as a result of the COVID-19 pandemic pursuant to Order in Council EC2020-174, and continued on April 15, 2020 by Order in Council EC2020-254, on May 15, 2020 by Order in Council EC2020-305, on June 15, 2020 by Order in Council EC2020-350, on July 14, 2020 by Order in Council EC2020-435, on August 14, 2020 by Order in Council EC2020-488, on September 13, 2020 by Order in Council EC2020-542, on October 13, 2020 by Order in Council EC2020-603, on November 12, 2020 by Order in Council EC2020-649, on December 12, 2020 by Order in Council EC2020-724, on January 11, 2021 by Order in Council EC2021-1, on February 10, 2021 by EC2021-71, on March 12, 2021 by Order in Council EC2021-138, on April 11, 2021 by Order-in-Council EC2021-271, on May 11, 2021 by Order-in-Council EC2021-407, on June 10, 2021 by Order-in-Council EC2021-494, on July 10, 2021 by Order-in-Council EC2021-577, on August 9, 2021 by Order-in-Council EC2021-658; on September 8, 2021 by Order-in-Council EC2021-733, on October 8, 2021 by Order-in-Council EC2021-813, on November 7, 2021 by Order-in-Council EC2021-909; on December 7, 2021 by Order-in-Council EC2021-993, on January 6, 2022 by Order-in-Council EC2021-1061 and on February 5, 2022 by Order-in-Council EC2022-72;

**AND WHEREAS** in consultation with the Lieutenant Governor in Council, I believe it is reasonably necessary to impose special measures in Prince Edward Island (“the Province”) in order to protect the health of the population;

**AND WHEREAS** pursuant to subsection 39(1) of the Act, I, as the Chief Public Health Officer, may require a person to take or refrain from taking any action that is specified in this Order in respect of a communicable disease;

**AND WHEREAS** I, as the Chief Public Health Officer, pursuant to subsection 39(2) of the Act, believe on reasonable and probable grounds that:

- (a) a communicable disease, COVID-19, including any new variants of the virus causing COVID-19, exists or may exist in the Province;
- (b) the communicable disease presents a risk to the health of persons in the Province; and
- (c) the requirements specified in this Order are necessary to prevent, decrease or eliminate the risk to health presented by the communicable disease;

**AND WHEREAS** pursuant to clauses 49(2)(c.1), (d) and (e) of the Act, I, as the Chief Public Health Officer, may order persons to refrain from entering or attending a public place or premises; to refrain from assembling in a public gathering in a specified area; limit the number of persons who will be permitted to attend a public gathering; limit the purpose for a public gathering or to refrain from travelling to or from any area of the province or on any road, street or highway;

**AND WHEREAS** pursuant to clause 49(2)(g) of the Act, I, as the Chief Public Health Officer, may order any other measure that is reasonably believed to be necessary for the protection of the health of the population during the public health emergency and pursuant to subsection 49(3) of the Act, I may require a person or class of persons who I reasonably believe is not protected against a communicable disease to take preventative measures;

**AND WHEREAS** the reasons for this Order are the global COVID-19 pandemic, the health risks posed by the pandemic, including health risks posed by new variants of the virus causing COVID-19, and the necessity to prevent, decrease or eliminate those health risks;

**AND WHEREAS** testing and isolating individuals who test positive for COVID-19, and any variants of concern, will prevent transmission of the virus and the associated illness and death and protect Prince Edward Island's health care system;

**AND WHEREAS**, at the time of making this Order, recommendations from the National Advisory Committee on Immunization inform that approximately two weeks after receiving a primary series and particularly after having received a booster dose six months following the primary series, currently authorized vaccines in Canada have been shown to be efficacious in the short term against confirmed symptomatic COVID-19 disease, appear to be efficacious against severe COVID-19 outcomes such as hospitalization or death, and may reduce infection and transmission of the COVID-19 virus;

**AND WHEREAS** unvaccinated individuals increase the likelihood of transmission to other vaccinated and unvaccinated individuals; and while substantial progress has been made in vaccinating the population of PEI 5 years of age and older, a portion of the public is unvaccinated which may lead to an increase in cases, hospitalizations, and intensive care admissions, primarily in unvaccinated people;

**AND WHEREAS** some events and activities are known to increase the risk of COVID-19 disease transmission and outbreaks; various options for establishing vaccine status, including in paper and online format, are readily available to members of the public; and programs that require that proof of vaccination be provided at some events and activities may reduce the public health risk of COVID-19;

**AND WHEREAS** I recognize the effect which the measures I am putting in place to protect the health of the public have on persons in PEI, including those who are unvaccinated and, with this in mind, have engaged and will continue to engage in a process of reconsideration of these measures, based upon the information and evidence available to me, including infection rates, sources of transmission, the presence of clusters and outbreaks, the number of people in hospital and in intensive care, deaths, the emergence of and risks posed by virus variants of concern, vaccine availability, immunization rates, the vulnerability of particular populations, and reports from the rest of Canada and other jurisdictions, with a view to balancing the interests of the people affected by this Order, including constitutionally protected interests, against the risk of harm to the public health created by the gathering of persons, including unvaccinated persons;

**AND WHEREAS** further relaxation of public health measures may occur in consideration of health risk associated with current COVID-19 variants and after ensuring a greater proportion of the population of PEI is fully vaccinated, booster doses are provided for high-risk individuals and uptake is increased for Health Canada's November 2021-approved pediatric vaccine over the next several months;

**AND WHEREAS** pursuant to subsection 56(1) of the Act, I, as the Chief Public Health Officer, may require any person to provide information that the Chief Public Health Officer reasonably considers necessary to:

- (a) assess the threat that a disease presents to public health and plan for and address the threat; or
- (b) evaluate and monitor the health and safety of the general public;

**AND WHEREAS** pursuant to section 60 of the Act, a public health official may request assistance from a peace officer in conducting an inspection, investigation, inquiry, search or in enforcing an order made under the Act;

**AND WHEREAS** pursuant to subsection 61(4) of the Act, no person shall knowingly provide false or misleading information, either orally or in writing, to a public health official;

- B. such additional time to 96 hours, as indicated by a public health official;
- (iii) if they are not fully vaccinated (including persons who tested positive for COVID-19 prior to December 15, 2021 based on a lab-confirmed COVID-19 PCR test or health clinic-confirmed rapid COVID-19 molecular test and not based on a rapid COVID-19 antigen test), self-isolate for
- A. 7 days from their last exposure to the confirmed case of COVID-19, if they receive negative test results on any required COVID-19 tests during that period, or
- B. such additional time to 7 days, as indicated by a public health official; and
- (iv) if they leave isolation after 96 hours under (ii) or after 7 days under (iii),

- B. except as indicated by a public health official, avoid all contact with vulnerable persons (for example: individuals in high-risk settings such as long-term care, congregate living or childcare facilities or individuals who may be at risk for severe COVID-19 outcomes) for a period of 10 days after their last exposure to the confirmed case of COVID-19.
- (d) Persons who are household members of a person who is self-isolating as a result of potential exposure to COVID-19 (for example, as a close contact or after return from travel) shall follow the criteria applicable to them as outlined January 27, 2022 at: <https://www.princeedwardisland.ca/en/information/health-and-wellness/covid-19-close-contacts>, as may be amended from time to time.

**AND WHEREAS** I believe that the persons entering a long-term care facility or nursing home and the movement of staff between long-term care facilities and nursing homes can promote the transmission of COVID-19 and increase the risk of infection with COVID-19 of persons in care and staff;

**AND WHEREAS** considering the mental health of certain individuals who are residents of certain facilities, I have determined there are certain asymptomatic individuals who should be able to enter these facilities and visit with residents during this pandemic;

**AND WHEREAS** pursuant to clause 49(2)(a) of the Act, I may take special measures during a state of public health emergency including, but not limited to, issuing directions for the purpose of controlling infection to an institution, health facility, corporation, health care organization, health professional or health care provider;

**AND WHEREAS** on October 4, 2021 the Chief Public Health Officer, in keeping with recommendations from the National Advisory Committee on Immunization, provided direction to long-term care and community care facilities to provide COVID-19 booster doses to all residents who are six (6) months past their primary vaccination series, and booster doses are now recommended for all residents of long-term care and community care facilities to increase the immune response and provide further protection against infection;
