

## Why do I need to fill out this form?

- We need a written list of all your medications and how you take them.
- Your healthcare team needs this to properly care for you during and following your hospital stay.

## What can I do if I do not have this information with me?

- Call a family member or friend to bring your medications to you.
- Call your pharmacy for a list of your medications.
- Discuss your medications with your nurse or doctor.

## What do I need to include?

- Include all the medications you take such as pills, inhalers, eye drops, patches, injections, creams, and so on.
- Also include the medications you buy over the counter such as herbal products and vitamins.
- How much of each you take.
- How often you take it.
- What allergies you have to medications and your reactions.

**Please keep this list with your Health Card**
